KING ALBERT MADE DICTATOR

COOLIDGE OUT OF 1928 RACE, CUMMINS SAYS

Bases Prediction on Farm Revolt.

Des Moines, Ia., July 13.—(P)—That President Coolidge will not be a candidate for reelection in 1928 was one of the predictions made by Senator Albert B. Cummins on his arrival here from Washington today.

Senator Cummins, who was defeated in the recent Republican primary by Smith W. Brookhart, said that after his retirement last March 3, he would return to his home here to write a history of his twenty-eight years in public service.

Sees Period of Strife.

The political upheaval in Iowa and other mid-western states presages a prolonged period of strife in the Republican party, which if allowed to continue, will throw that party "on the rocks," especially if the Democrats maintain their solidarity, the senator believes. In his opinion the present "nominal" Republican majority in the upper house of congress may disappear with the November election.

One doesn't know that President Coolidge will be a candidate or that he wants to be a candidate," the senator said. "My own prediction is that he will not be a candidate."

"I think Mr. Coolidge has been a very successful President in all but one thing, and that is his policy toward agriculture."

COOLIDGE PARTY SURPRISED

BY ARTHUR SEARS BENNING.
Paul Smith, N. Y., July 13.—(Special)—Senator Cummins' statement that President Coolidge will not be a candidate in 1928 to succeed himself as a Republican success in that year, came as a surprise to members of the President's party here.

It met with only expressions of astonishment that the Iowa senator had moved to couple an assertion of the President's intentions, about which he could know nothing, with a prediction that his party is doomed to the same fate that attended his own attempt to succeed himself in the senate.

What Leader Believes.

The general opinion among Republican leaders is that if the country is prosperous in 1928 the President undoubtedly will be a candidate. Should prosperity come, the President has not made any plans for participation in the campaign. But this does not mean it is planned that he will not assist his party in its administration.

Believe He Will Run.

Washington, D. C., July 13.—(Special)—That President Coolidge fully intends to be a candidate for reelection in 1928 is the belief of members of his administration.

The statement of Senator A. B. Cummins that Mr. Coolidge will not run was refuted by administration leaders reflecting the present feeling of the middle western group, which might the enactment of the corn belt surplus legislative program, opposed by the administration.

AIMEE'S SAFETY KNOWN 3 DAYS AFTER SHE LEFT

Mother Received an Assuring Wire.

BY GEORGE SHAFER.
(Chicago Tribune Press Service.)

Los Angeles, Cal., July 13.—(Special)—Information that Mrs. Minnie Kennedy, mother of Mrs. Aimee Semple McPherson, evangelist of Angeles temple, received a message announcing the safety of her daughter three days following Mrs. McPherson's alleged kidnapping on May 18 last was made public today. And for weeks after that Mrs. Kennedy was active in working on the mystery of the evangelist's disappearance.

Handwriting of Ormiston

Investigation in Oakland reveals that the handwriting of the telegram corresponds to that of Kenneth Ormiston, the much sought missing grand witness. Telegraph employs in Oakland stated that the sender of the telegram resembled Ormiston, who is a radio operator connected with Angelus church and whose name has been mentioned in connection with the Rev. Aimee's disappearance.

Indict or Keep Silent.

Judge Arthur Keetch, presiding over the county grand jury, prefaced today's sessions of the McPherson inquiry with a statement that either the jury would return an indictment or would make public no report on the case.

Discrepancy as to Time.

Peterson testified he was "positive" he saw a woman in a green bathing suit answering Mrs. McPherson's description running across the sandy beach near Navy pier, at Ocean Park, at 4 p. m. on May 18. Mrs. McPherson's previous testimony placed the hour of her disappearance as between 2:30 and 3 p. m. and at a point two or three blocks away from where Peterson said he saw her. The result of his statements probably will be Mrs. McPherson's recall before the jury.

Jurors See "Desert" Clothing.

The day's witnesses also included Police Sergeant A. E. Murchison of Douglas, Ariz., where Mrs. McPherson disappeared on June 23 with her story of escape from the elusive kidnaper, Miss Emma Shaffer, secretary of the woman pastor, H. C. Hallenbeck, rancher of near Yuma, Ariz., who is known as a confidante of Mrs. McPherson, and her mother, Mrs. Hallenbeck, Rolfe McPherson, 12 year old son of

Cicero Police Seize Killer of 3 Persons

Another murder was being premeditated last night by James Crisius, alias Granite, as he walked the streets of Cicero. Inadvertently he displayed his left hand, from which the thumb had been amputated, and in a few minutes he was under arrest and confessing to three murders.

Wanted Lawyers' Fees.

Those murders, he said, were incidental to his desire to obtain money by robbery so he could hire a lawyer. He intended, he said, to kill Sol Schwartz, son of the owner of the American Flange and Manufacturing company, 4444 Arthington street. And, having killed the other three, he confessed, he was seeking Schwartz last night to kill him, after which he said he intended to surrender to the police.

Four or Five Months Ago I Lost My Thumb in an Accident in the Factory.

"Four or five months ago I lost my thumb in an accident in the factory," the killer explained. "Sol Schwartz, son of the owner, was responsible, as he forced me to work on a lathe known to be defective."

Wanted to Kill Schwartz.

"I wanted to get enough money so I could kill Schwartz. Sunday night we held up the taxi driver and tied him with ski chains and put him in the car. I put on the uniform and drove until we saw the car with the man and woman."

Police Catch McWane.

"Then our car was wrecked and McWane caught by the police, so I hid all night on the roof and wrote a letter saying I was going to kill myself. It was Schwartz, though, that I was going to kill."

Body Is Found on Pavement North of Niles

Jules Portuguese, west side gangster, hijacker, and jewelry robber, was "taken for a ride" early this morning and his body left in the middle of the pavement on Milwaukee avenue north of Niles, about 300 feet south of the intersection with the Glen View road. He had been shot four times in the head at close range. Powder marks covered the face.

Found by Boys.

The body was found by two boys, Maynard Bush, 355 West 64th street, and Leonard Christianson, 611 Westworth avenue, who were returning to the city from Grass lake and they reported it to the Morton Grove station of the county highway police. Lieut. Lester J. Laird immediately began an inquiry to ascertain the identity of the victim. Finger prints were taken and rushed to the bureau of identification, where it was found they were those of Portuguese.

Portuguese had a long criminal record.

It was only a few weeks ago that he was arrested while blithely riding in an automobile with a revolver at his side, when he was supposed to be serving a sentence of ten years to life on a charge of robbery with a gun. Following the murder of Dean O'Banion, Portuguese had become a prominent figure in the alcohol business.

GRANTED POWER BY BELGIUM TO SAVE FINANCES

"Facing Crisis Like Tragic Days of '14."

(Copyright, 1926, by the New York Times.)

BRUSSELS, July 13.—The chamber today conferred practically unlimited powers upon King Albert to attempt to solve the country's financial troubles. The monarch, who led his troops in battle while all but a few square miles of his country was under the heels of the German invader, thus becomes Europe's first royal dictator.

Belgium seeks one man rule to restore order in the nation's business following the failure of a divided parliament to stop the crash of the Belgian franc and the rapidly rising cost of living.

The bill prepared by the government

and adopted by the chamber grants the king an "extension of power" for six months and authorizes him to do the following things:

Modify or supplement all existing regulations on currency circulation; contract loans and determine their terms; take steps to prevent or reduce inflation; make laws to prevent the troubles deflation might cause; insure the return of capital hidden abroad; approve all changes or additions to the statutes of the national bank deemed necessary in general reform; fix or change taxes, and many other plenary powers.

"Like Days of '14."

"I ask the chamber at a time which is singularly reminiscent of the tragic days of 1914 to give us power to prevent our citizens without consciences from continuing this odious and absurd campaign against our national currency," Premier Jaspar said. "They think they are saving something, but in reality they are compromising all the nation's assets. When we stabilize our franc it will be at a rate far below present quotations."

"Nothing justifies the uneasiness of our population. Never have we had so few unemployed. Antwerp has recovered full activity. Our crops are bountiful and agricultural production is worthy our industrial production. The budget is balanced, thanks to economy, and no new taxes will be needed on this score."

It is only for dealing with the

financial problems and food supplies we ask these powers."

BARES DEBT PACT TERMS

BY DON SKENE.

(Chicago Tribune Press Service.)

LONDON, July 13.—Winston Churchill, chancellor of the exchequer, this afternoon told the house of commons that France has reached a settlement with us, clearing the slate between Britain and France of all outstanding accounts rising out of the war and post-war period.

Thus the British finance minister announced officially the final debt funding agreement, signed by himself and the French finance minister, Joseph Caillaux, yesterday.

"We have agreed on a scale of yearly

counterclaims, the sum of \$2,500,000 (\$10,000,000) of French money now in London might be transferred to the British exchequer, thus increasing this year's receipts by that amount.

Keeps French Gold.
Regarding the vital question of the transfer of the French gold supply now in London to France, it was agreed that France shall continue to owe British \$2,500,000 pounds (\$267,500,000), noninterest bearing. Settlement of this debt is subject to further agreement, and meanwhile British will retain the gold, without interest.

Mr. Churchill added, "There is a clause providing that in the event British receipts from reparations and war debts exceed what we shall have paid since the war to the United States, the surplus shall be divided among various allied debtors."

Caillaux Pleased With Pact.
[Chicago Tribune Press Service.]
PARIS, July 13.—(Special.)—Finance Minister Joseph Caillaux returned to Paris today, seemingly well pleased with the Franco-British debt settlement. In an official communique tonight M. Caillaux reveals that France can make its payments to both England and America if Germany holds the Dawes payments up to half the stipulated level. If Germany pays in full France can keep half of these amounts each year.

The French are elated at parts of Mr. Churchill's letter approving the safeguard clause for France. They believe it calls upon America to soften its conditions to France.

In case M. Caillaux fails to secure a modification of the Mellon-Dawes accord from Washington before the chamber takes up the ratification of the debt accord, a Socialist measure introduced tonight demands that reservations be made so far as safeguard, transfer, and noncommercialization clauses are concerned. A report was spread here tonight that Secretary Mellon does not intend to visit Paris, but THE TRIBUNE learns from an unimpeachable source that M. Caillaux is certain that he is going to meet the American treasury chief while he is in Europe.

The franc remained at 35.50 to the dollar today.

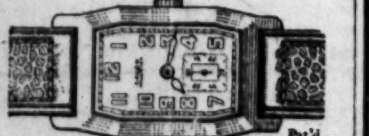

Robber Steals Girl's Slipper From Foot; Flees

When Miss Amy Rix walked into the vestibule of her home at 316 Cornelia avenue, last evening, she was seized by a man she later described as poorly dressed and with bloodshot eyes. As she screamed the man seized her right slipper, pulled it from her foot and fled. She told police there was nothing to prevent the man from taking her purse, but that he paid no attention to it.

VOLSTEADISM'S EVIL BROOD STIRS AMERICAN BAR

Association Alarmed at Contempt for All Law.

BY ARTHUR EVANS.

Denver, Colo., July 13.—(Special.)—America's growing crime rate, the disrespect for law that has ridden in the wake of Volsteadism, the high financial basis on which murders, robberies, and stick-ups inspired by millions of bootleg and moonshine money are picked in section gatherings today as a curtain raiser for the sessions of the American Bar association, which starts tomorrow.

A more efficient judicial procedure is the dominant note of this year's gathering. During the next three days the legal brains of the nation will devote much thought to means by which the machinery of justice may be modernized to afford protection to society instead of to the professional criminal group.

More than 2,200 members are here, and the town is filled with justices, judges, attorneys general, and leaders of the bar from nearly all states. The attendance is so large that hotel accommodations are about as hard to obtain as at the Democratic national convention here in 1908.

To Discuss Public Utilities.
Next to crime, public utilities were a big chapter in the preliminaries. Mayor William E. Dever of Chicago is following with interest the action of the national conference of commissioners on uniform state laws, which

ATTY. GENERAL CLEGG.

ARMY COLONEL, SLOW IN SALUTE TO BORNO, TO BE DISCIPLINED

New York, July 13.—(AP)—Delay in firing a salute to President Louis Borno of Haiti on his recent arrival in New York has resulted in an order for the court martial of Col. James T. Horton Watson, stationed at Governor's Island. The charges against Col. Watson were preferred by Col. Stanley H. Ford, during whose absence Col. Watson was commanding officer at Fort Jay when President Borno arrived a few weeks ago.

has just adopted the principle of the "indeterminate permit" which involves a relatively new departure in utility franchises. The subject has recently been studied by a commission from the Illinois legislature which studied American and European cities. The idea comes up before the commissioners next year on second reading and after that it goes to the bar association for approval, after which it is to be submitted to the various state legislatures.

Governors of states appointed the commissioners on uniform laws, who thus have an official rating.

Measures to Be Approved.
Among the measures which will go to the bar association for approval this week, and if O. K'd will be ready for state legislatures next winter, are: Uniform vehicle code which will require all drivers of automobiles to take out licenses; They would have to show themselves mentally and physically competent to drive, and licenses may be suspended or revoked for certain offenses. It is based on the Massachusetts law, under which in the first year of operation licenses were refused to 85,000 applicants as being unfit or incompetent to drive. Uniform act to regulate the sale and possession of firearms. It was Oscar E. Carlstrom, attorney general of Illinois, who opened the ball on the crime situation. The recent investigations of the pardon mill in Illinois and the organization of hardened malefactors into a criminal brotherhood for purposes of beating the law and its penalties primed Mr. Carlstrom for a few observations which actually startled the national association of attorneys general at its session.

"In the United States," said Mr. Carlstrom, there exists an organization of cracksmen known as the Bank

Robbers' Association of America, which has for its legal representative one of the most brilliant lawyers of the east. There are only about 300 first class robbers and safe crackers in the country. They are banded together in a compact fraternity which provides for the defense of members who may be arrested. In form it parallels the bootlegging gangs in Chicago, except that there is no rivalry between groups."

Mr. Carlstrom had a word or two for high ball. "I believe," he said, "that ball should be fixed high enough to hold the repeating offender in incarceration until his trial. This is not against the constitutional provision against excessive bail, for in such cases it would not be excessive."

Then he got an extra loud hand with the remark: "Enforcement of crime laws will not rise above the thought and conscience of the community."

Awakened Conscience Needed.
An awakened public conscience is the great need, said Justice H. P. Burke of the Colorado Supreme court, addressing the judicial section in much the same strain as the Carlstrom speech. The jurist attacked pardoning governors for an orgy of paroles. Some of his highlights were:

"Crime is costing America three billion dollars a year."

"More murderers and robbers are loose in the land than there are soldiers in the regular army or policemen in American cities."

"The United States has more crimes of all classes than have a dozen other principal nations combined."

"The cause of the scourge is the mental attitude of the people."

"The national sore is not healing," said Justice Burke; "education is not checking it; repeaters are increasing in every penitentiary. The bad facts are so hideous as to chill the blood."

"Nowadays society regards the trial of criminals as a tournament. This is true of governors, legislatures, courts, press, and public. The legal profession pays adulation to its tricky members; the press gives too much space to crime news; the public follows a noted criminal in crowds and sends him flowers, and if he is convicted, no matter how horrible his crime, joins in appeals for clemency. Citizens refuse to vote and to serve on juries."

The cure, Justice Burke said, lies in the hands of bench and bar.

PROFITEERING IN TOMATOES HERE, U. S. EXPERT SAYS

W. H. Hall, market news expert for the U. S. department of agriculture, in a bulletin issued yesterday accuses Chicago retail merchants of profiteering in tomatoes and cantaloupes and declares also that altogether unreasonable profits have been taken on head lettuce.

Tomatoes which would give the retailers a profit of 100 per cent if sold at 4 to 8 cents a pound have been selling at 10 to 15 cents a pound, he pointed out. He added that the jobber is getting only 3 cents a pound for the same tomatoes from merchants.

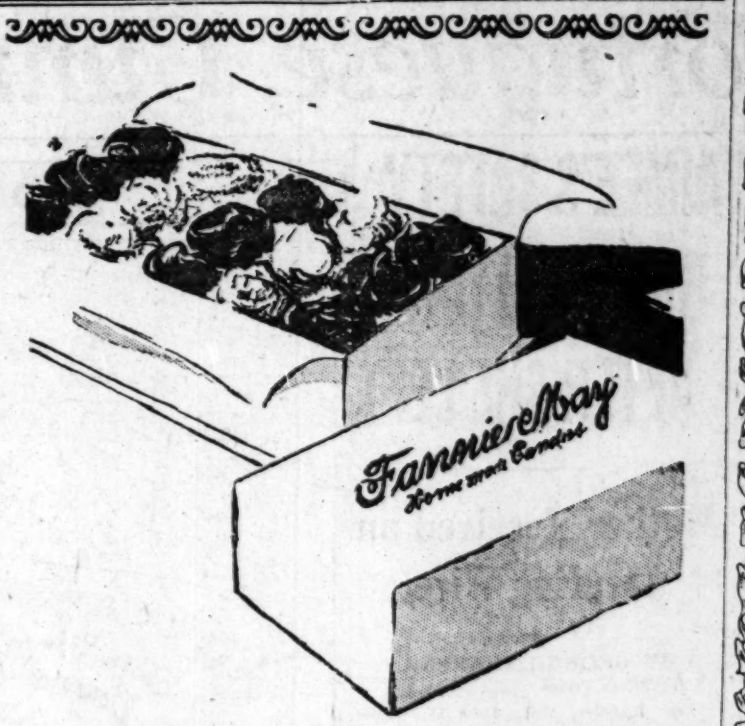

Mr. Hall continued that cantaloupes are selling entirely too high and that the same dealers are exacting a 50 per cent profit on head lettuce. He advised an organized consumers' protest.

MOUNTED POLICE QUELL JOBLESS RIOT IN BERLIN

[Chicago Tribune Press Service.]
BERLIN, July 13.—Mounted police charged a mob of unemployed in Berlin today after a police captain and a number of policemen had been wounded in a riot around the national employment agency. In scorching heat, thousands of Berlin's 90,000 jobless stood in long queues waiting for the assignment of jobs or for payment of the weekly doles of \$2.50.

Some of the unemployed seamstresses, exhausted from the long wait in the close rooms, fainted. Exasperated, the mob broke the windows, as they accused the clerks of deliberate slowness in order to torture the underfed women.

Police intervened. The mob beat the captain. To save him from lynching, the police attacked the rioters.

JARECKI FINDS BALLOTS STOLEN FOR HIMSELF

Report Harry Hochstein Named in True Bill.

(Pictures on back page.)

County Judge Edmund K. Jarecki, in the recount of the Democratic primary ballots, yesterday discovered that 17 votes had been stolen for himself in three precincts.

The discovery followed a clash between Judge Jarecki and Joseph P. Savage, his Republican opponent, when the judge rebuked Savage for having watchers tabulate the Jarecki-Byrne vote for county judge as the ballots were being turned for the recount in order Democratic offices.

"But what objection can you have in counting your votes?" Mr. Savage asked. "You are counting my votes, although no recount has been ordered, and you have no legal right to do it. I have no objection to this, and I believe the public is interested in knowing how your votes will stand in the recount."

Judge Does Own Recounting.

"I'll have them all counted myself if you desire," Judge Jarecki retorted, and he did.

In 157 precincts recounted thus far in the Republican race for county judge Judge Daniel P. Trude has made a net gain on Mr. Savage of 2,334 votes. The Savage forces pointed out that if the average discrepancy found in Judge Jarecki's vote in the three precincts was followed out in 157 precincts he would have lost 4,029 votes. In the 29th precinct of the 20th ward 48 votes given Judge Jarecki were thrown out as stolen or credited to him by errors; in the 22d precinct, 17 votes, and in the 23d precinct, 2 votes, a total of 77.

The Democratic recount in the 29th ward was completed last night and a total of 11,889 fraudulent votes, covering all candidates, was found in the ward. The frauds favored the Republican organization, led by George E. Brennan, almost unanimously. The regularity with which the vote thefts in the 29th favored the Brennan candidates is shown by the fact that the Democratic organization opponents lost only 210 votes in the recount.

Report Hochstein Indicted.

One of the so-called higher ups in the 60th ward ballot theft scandal, Harry Hochstein, Deneen-Lundin committee man in the ward was reported indicted yesterday by the special vote fraud grand jury.

Hochstein, one of the old faithful followers of Fred Lundin, and recognized leader of the Lundin faction in the 60th ward, is declared to have been appointed by Judge Jarecki to name all the Republican judges and clerks of the election who served in the primary, and who stole thousands of votes, as revealed by the recount.

While the evidence on which the grand jury is reported to have acted against Hochstein was closely guarded, it was rumored that witnesses testified he was present when a ballot box was stuffed with 148 fake ballots in one of the precincts of the 20th ward.

Three women and one man election official in the Twenty-first precinct of the Eleventh ward were also reported to have been indicted by the grand jury. They are Pauline Haftkowiak, 1222 Wall street; Pauline Ochocinski, 1114 Wall street; Anna Boyle, 1341 West 32d street, and Frank J. Przycki, 3214 Wall street.

Prosecutor Hunts Higher Ups.

announce that mercy will be shown any penitent offenders who will expose the inner workings of the conspiracy to sell out whole wards to certain candidates of both Republican and the leading Democratic factions. Mr. McDonald let it be known that he is most anxious to send the ring leaders in the conspiracy to the penitentiary, and that he would grant immunity to those who will aid him. All the judges and clerks who "obeyed orders" are being indicted, it was said, and they will be prosecuted unless they point out the way to the high politicians who directed the thievery.

In the Republican recount the vote thievery continued to swell, the total number of fraudulent votes exposed to date in 157 precincts now being 195,938. How the huge steal is divided is shown in the following table:

Faction—	Gains.	Losses.
Crowe-Barrett	21,823	89,587
Deneen-Lundin	18,752	38,917
Independent	15,740	15,119
Totals	56,315	141,623

In the McMillan-Morgan race for the last place for Municipal Judge, Robert E. McMillan climbed up a few votes yesterday, but is still 49 votes behind Judge William L. Morgan.

The territory thus far recounted by Judge Jarecki's order includes the 20th, 21st, 22d, 23d, and part of the 24th ward.

ELKDOM ELECTS C. H. GRAKELOW EXALTED RULER

Show Over \$2,000,000 Gifts to Charity.

The charitable, community welfare, and patriotic work carried on by 800,000 members was recited and lauded at the first general session of the Grand lodge assembled yesterday. This first business meeting, held in the Auditorium theater, was attended by more than 2,000. The order was founded in 1868 by a few men, mostly interested in the stage.

In accord with the patriotic principles of many reports of the day was the statement of Charles W. Grakelow, grand exalted ruler elect, who is likewise director of the department of public welfare of Philadelphia.

Elected Without Dissent.

He was unanimously elected yesterday after nomination by his mayor, W. Freehand Kendrick.

"We are thankful," he said, "that there is no statutory limitation set on the amount of molding of citizenship ideals and public opinion. For if there were I fear the B. P. O. E. would surely violate it."

Following the election of the new grand exalted ruler and nine subordinates for the coming year, the serious side of the sixty-second annual convention manifested itself by the quick selection of Cincinnati as the next convention city, followed by the reading of numerous reports, which carried the meeting into late afternoon.

Show Work Elks Do.

These reports embodied much of importance both to the Elks himself and to those who sometimes question the sincerity of the precepts of organized fraternalism.

Of chief interest to many of the delegates was the report of the committee on social and community welfare, which, under the chairmanship of past Grand Exalted Ruler John P. Sullivan of New Orleans, has the duty of distributing funds for charity and other purposes.

Their report shows a total disbursement of more than \$2,370,000 this past year, especially for community entertainments, fuel, food and clothing for the poor, hospital donations and educational work for children.

Many Helpers Lighten Burden.

The per capita expenditure for welfare work was \$2.85 for every member of the order last year as compared with \$2.76 for the year before, the chairman pointed out. "It is small wonder," he added, "that we Elks are wont to speak with pride of the fact that our beloved order is a social and community welfare organization with a fraternal background."

It was explained that 11:00 p. m. each night lights are turned down for toasts to the absent brethren.

Besides Mr. Grakelow, those chosen yesterday are: Grand Esteemed Leading Knight, Hubert S. Riley; Grand Esteemed Loyal Knight, Harvey M. Blue; Grand Esteemed Lecturing Knight, Hugh D. McCosh; Grand

ELKS' CONVENTION NOTES

The bands in the Elks' contest in Soldiers' field yesterday were those from Seattle, Minneapolis, St. Paul, Denver, Philadelphia, El Paso, Buffalo, Detroit, Peoria, Bakersfield, Cal., White Oaks, Cal., Jackson, Mich. Today after bands from Altoona, Pa., and from Wisconsin have completed, prizes from \$600 to \$250 and silver cups will be awarded to winners.

The Madison, S. D., band, the pride of Past Exalted Ruler James G. McFarland, arrived yesterday.

Martin J. O'Brien, city controller, represented Mayor Dever at the Washington park racetrack yesterday.

Three of the four winners of the Elks' beauty contest attended the races: Marie Hanley, "Miss Justice"; Marjory Moline, "Miss Charity"; and Miss Mona Leis MacMillan, "Miss Brotherly Love." Jean Marre, the first prize winner, was reported to be ill.

Coronation of the beauty winners will take place at the Aragon dancing

palace at Lawrence near Winthrop avenue at 10 o'clock this evening.

Louie Forman, president of the Illinois State Elks' association, gave a banquet in the English room of the Congress hotel last evening to the presidents and secretaries of the various state associations. More than 100 attended.

Grand Exalted Ruler William Hawley Atwell estimates that approximately 500,000 people will visit Chicago during the six day convention.

Today at 10 a. m. the Elks' drill team contest will be held at Soldiers' field, with teams from Washington, D. C.; Peoria, Ill.; Buffalo, N. Y.; Jackson, Mich.; Seattle, Wash.; Oakland, Cal.; and Bakersfield, Cal. Prizes range from a \$600 to a \$50 trophy.

A circulating band contest, open only to bands composed of members of the B. P. O. of Elks, will take place at 8:30 this evening. They will play at 12 points in the loop, where judges will decide the winners of \$175 in prizes.

Secretary, Fred C. Robinson; Grand Treasurer, Fred A. Morris; Grand Trustee, Richard P. Rooney; Grand Tiler, Michael H. McCarron; Grand Inner Guard, Louis H. Foreman.

Today at 11:00 a. m. the Lodge of Sorrow will meet at the Auditorium for a short memorial service for the dead of the order.

Aside from their charitable work, the Elks have added much not measurable in dollars and cents to the good of the order, patriotically. These lessons in love of country are contained in a special flag day ritual presented for the delegates' approval.

Elaborate Flag Ritual.

Nine English and American flags which have flown on this continent since the time of John and Sebastian Cabot, first to bring the English flag, are displayed in every lodge room of the order, to which credit is given for the establishment of "Flag day."

Through the efforts of the committee, each of the nine is now given a song of its times pertaining to the patriotic feeling of the period.

It is proposed that each lodge adopt as a part of their flag day exercises the singing of the following anthems in memory of the flags they are declared to typify:

John and Sebastian Cabot's flag, 1497—The old battle hymn of "Agnicourt."

British flag or union of king's colors, 1606—"Ballad of Chevy Chase."

Union Jack, 1607—"Why Should We Sing of Arthur?"

Bunker Hill pine tree flag, 1776—"Yankee Doodle."

Rattlesnake flag of the southern colonies, 1776—"Chester."

Congress colors, 1776—"The Successful Campaign."

Betsy Ross flag, June 14, 1776—"Hail, Columbia."

Fifteen stripe standard, war of 1812—"Star Spangled Banner."

American flag of the present day—"America."

Page after page of the report on this particular subject traces the historic background of each flag.

LAKES TO OCEAN PROJECT DRAWS COOLIDGE'S EYE

Awaits Joint Engineering
Report on Seaway.

BY ARTHUR SEARS HENNING.

Paul Smith's, N. Y., June 13.—(Special.)—Development of the St. Lawrence river to give ocean shipping access to the Great Lakes is a project to which President Coolidge, it was disclosed today, expects to give early attention.

The St. Lawrence seaway project is one of the principal features of an avast scheme of development of inland waterways which Secretary of Commerce Hoover has mapped out and the initiation of which the President hopes will be listed among the achievements of his administration.

Cheaper Transportation.

In pressings for a beginning of this undertaking, the President believes he not only is moving in the direction of satisfying present demands, such as providing cheaper transportation for grain and other farm products to seaboard and overseas, but is practicing wise statesmanship, in correctly envisioning the future needs of the nation and preparing to meet them.

The President foresees a day not far distant when all the facilities of the railroads and all the waterways, not to mention the airways, will be taxed to the utmost to carry the country's products and all the available hydro-electric power will be required to supplement steam in driving the wheels of our expanding industry.

A part of this program of internal development is provided for in the river and harbor bill which the house has passed and which the senate has agreed to take up next December. The President already has indicated his satisfaction with the main thrust of the bill.

Will Seek Treaty.

Mr. Coolidge now is awaiting a detailed report on the physical aspects of the St. Lawrence seaway project by a joint board of American and Canadian engineers. He disclosed today that he had rejected a suggestion to inspect points on the St. Lawrence where engineering works would be required, pointing out that he is not an engineer, he could more advantageously study the project from reports and maps. This report was to have been completed in May and the President expects to have it in hand by September.

The original estimate of cost of the St. Lawrence project was \$252,000,000. The engineers are of the opinion that between 1,000,000 and 2,000,000 horse power of water power would be developed incidentally to the improvement of navigation and that the commercial disposition of this power would reimburse both Canada and the United States for the cost of the undertaking.

DENEEN ASSURED OF REPUBLICAN SUCCESS, HE SAYS

(Chicago Tribune Press Service.)

Washington, D. C., July 13.—(Special.)—Republicans should hold their own in all of this fall's senatorial contests, in the opinion of Senator Deneen (R., Ill.), who, on returning to Chicago this week, will announce the opening of joint headquarters of the Republican

senators in a formal congressional campaign committee. It is planned to open headquarters at the Wood (Rep., Ind.), chairman of the congressional committee, in active charge.

CHAS. S. DENEEN.

Senator Deneen, who is secretary of the senatorial campaign committee, and Representative Wood (Rep., Ind.), chairman of the congressional committee, in active charge.

ests, but eventually consented to join the United States in the engineering study.

Canada has indicated that she will insist upon any such treaty embracing not only the terms of participation in the St. Lawrence development, but a settlement of the question of diversion of lake water at Chicago and provision for maintaining lake levels generally and for preserving Niagara Falls.

BAD CHECKS AND BIGAMY CAUSE SAILOR'S ARREST

Maurice F. Lee, 30 years old, recently a tubercular patient at the naval hospital at Great Lakes, was not too ill, however, to marry Miss Alice Sittner, 18 year old daughter of Paul Sittner, well to do theater owner of 929 Margaret terrace.

At the detective bureau last night, however, it appeared that Lee also believed in the old saw about a sailor having a wife in every port. For when he married Miss Sittner, it is charged by her father, he already had a wife, Florence, living at 4050 Wilcox avenue.

Lee and Miss Sittner were married on July 3. Mr. Sittner began investigating him when two checks—one for \$50 and one for \$25—had given his young wife to cash at the Copeland hotel, Argyle street and Sheridan road, where they went to live, proved bogus.

WIRE REVEALS MOTHER KNEW AIMEE WAS SAFE

Learned It 3 Days After
Disappearance.

(Continued from first page.)

the evangelist, and Mrs. Blanche O. Rice, captain of the woman orderlies at Angelus temple.

The jurors, who sat about the witnesses in a semi-circle taking notes and occasionally asking questions, displayed most interest when Police Captain Joseph Taylor brought in the clothing worn by Mrs. McPherson on the morning of her arrival in Douglas, stating that she had walked 25 miles over the blistering Sonora desert.

The articles consisted of a gray gingham dress, white underslip, corsets, black strapped slippers, and black stockings. There were no marks of perspiration on the corsets. There were some holes in the stockings.

Mrs. Kennedy Tells of Reward.

Mrs. Kennedy testified that she was convinced her daughter was drowned when the morning of May 19 failed to bring any reassuring news. She described the watch maintained for four weeks along twenty-five miles of beach west of Los Angeles, when 8,000 Angelus temple followers, organized into patrols, maintained vigil for the appearance of the pastor's body.

Mrs. Kennedy explained that she withdrew a \$25,000 reward for the return, alive, of Mrs. McPherson, upon the suggestion of Detective Captain Cline. Capt. Cline has been in charge of the McPherson investigation from the first day, leading the search for facts in the beach locality, San Francisco, Arizona, and Mexico.

The witness answered questions regarding the finances of Angelus temple, \$300,000 home of Mrs. McPherson's creed of the "Four Square Gospel." She said the temple was conducted "like a corporation," with herself, Mrs. McPherson, and the latter's secretary, Miss Schaffer, "much the same as a board of directors."

Denies Any Quarrel.

District Attorney Keyes asked about the report that a vigorous disagreement between mother and daughter occurred the day before Mrs. McPherson vanished, and Mrs. Kennedy denied that quarrels were frequent or sharp. She said, "of course I sometimes bawled Aimee."

The witness also answered questions about the receipt of a \$500,000 ransom letter, signed "The Avengers," which inclosed a lock of Mrs. McPherson's hair and other proofs that the missing woman was alive at the time of mailing, on June 17. She stated that she received the letter on June 21, two days after a memorial mass meeting, at which cash and pledges totaling \$34,000 were received.

Postal officials are conducting an inquiry regarding this letter, stating that it was received for the memorial mass meeting at which an appeal for funds carried the statement that Mrs. McPherson was drowned.

The author of a pamphlet entitled "The Disappearance of Aimee Sempie McPherson," appealed for police protection as the result of a shot which narrowly missed his head last night.

There will be months more of litigation before the cousins may obtain actual cash from the estate, it was indicated. An appeal to the appellate court will be taken by four claimants whose claims to kinship have already been lost in two court fights.

Eight Cousins To Share \$6,000,000 JENNINGS ESTATE

Eight cousins of Edwin B. Jennings, who lived in poverty but left a \$6,000,000 estate upon his death, will share the fortune, according to a decision of Judge Kiekhafer Scanlan in the Circuit court yesterday.

Eight Cousins To Share \$6,000,000 JENNINGS ESTATE

Eight cousins of Edwin B. Jennings, who lived in poverty but left a \$6,000,000 estate upon his death, will share the fortune, according to a decision of Judge Kiekhafer Scanlan in the Circuit court yesterday.

There will be months more of litigation before the cousins may obtain actual cash from the estate, it was indicated. An appeal to the appellate court will be taken by four claimants whose claims to kinship have already been lost in two court fights.

Jennings died in 1923. Two hundred claimants to the estate appeared and a mysterious will was produced. But the will was declared fraudulent and the heirs narrowed down to eight by the court. They are Sarah M. O'Carra of Ontario; Norman Brise of New York; Cassie Bogart of Elmira, O.; and George T. Jennings, Edna E. Quest, T. E. Brady, Charles R. Jennings and John A. Jennings.

SLEUTHING WIFE JAILS MAN WHO GOT MATE JAILED

Sleuthing by his wife, Marie, last night landed the man who got Joseph Kretschman of 1370 Melrose street into trouble, but it didn't get Kretschman out of jail. Still Clinton Stanton, alias Derry, his trouble maker, was in jail with him and so she has some consolation.

On Feb. 18 the safe was blown in the Lakeview laundry at 3018 North Clark street and a number of salary checks stolen. Recently Stanton purchased some whiskey from Kretschman with one of the checks. Kretschman was arrested when he appeared at the bank with it.

Then Mrs. Kretschman sleuthed around Stanton's haunts until she found out where he lived and yesterday detectives went to a fourth floor flat at 748 Webster avenue, where they found him hanging by his hands in an air shaft.

Kretschman is charged with accessory to confidence game and burglary; Stanton with burglary.

ALDERMEN SEEK AID OF CITIZENS ON TRANSIT JOB

Urge Special Committee
Be Named by Dever.

Creation of a committee of seven disinterested private citizens to try to bring about a solution of Chicago's traction problem was recommended yesterday by the city council committee on local transportation.

At the same time, the committee instructed Maj. R. P. Kelker Jr., its engineer, to draft plans immediately for a downtown subway to have in readiness in case the proposed citizens' group is able to effect a settlement in time for a referendum at the November election.

The citizens' committee, under the terms of the recommendation, would be appointed by Mayor Dever subject to approval of the council. Its function will be similar to that of the committee which recently worked out the agreement for straightening the river.

Council to Act Next Week.

Final action on the proposal probably will be taken by the council a week from today at its last meeting before adjourning for the summer.

The action of the transportation committee came unexpectedly after a heated debate on a resolution proposing the citizens' committee, introduced by Ald. A. F. Albert (46th). The final vote stood 6 to 3, Chairman Joseph B. McDonough casting the deciding vote.

"We have done everything possible to settle this question," said Ald. McDonough, explaining his vote. "For months we have worked hard on an ordinance we think is the best for Chicago. But we have failed."

Spa at Traction Chiefs.

"The heads of the traction lines, Mr. Insull and Mr. Blair, have ignored our invitations to come in and negotiate with us. They have even refused to send their engineers or in any way try to help us solve the problem."

Their intentions are obvious. They want to take the question to Springfield and get legislation that will take all the rights away from Chicago. There is nothing more we can do. An impartial committee may be able to do something where we have been blocked."

The Albert resolution cites "the settlement of the traction problem on a common sense basis as the greatest question now confronting the city" and one on which the city has spent \$1,000,000 for lawyers and experts without any success.

No Power to Act.

The plan provides specifically that the citizens' committee shall make a thorough study of all the past ordinances and discussion, then confer with the traction officials, and finally recommend suitable legislation to the city council.

"The committee will not be empowered to take any action itself," Ald. Albert explained, "but can only make recommendations, thus giving the council a last chance to make any changes it sees fit before any laws are passed."

Ald. Oscar F. Nelson (46th), who led the fight against the measure, declared the council would be under a moral obligation to adopt the commission's recommendations, whatever they were.

"Suppose these seven good citizens are sold on a settlement favoring the traction interests," he said. "And suppose they are supported by the press and by public sentiment. What are we going to do? We'll have to swallow exactly what they give us."

Ald. Arvey opposed the resolution on the ground that in view of the conference of traction heads and bankers called by Mayor Dever for July 22 it is too hasty. It would be better to wait, he said, until Mr. Blair and Mr. Insull flatly tell the mayor they do not want to negotiate with the city.

Just what the attitude of the mayor will be is unknown. Considering his willingness to appoint the river straightening committee, however, his friends were said to believe that he will be glad to follow the same course with traction.

PROTECTED

GUNMEN SHOOT TWO POLICEMEN AND 2 CAPTIVES

May Have Been Effort to
Rescue Prisoners.

New York, July 13.—[Special.]—

Detectives Thomas Hammill and Henry Hoffman and two of four prisoners they were taking to police headquarters in an automobile were shot today during a desperate attempt by five or six unknown men to rescue the prisoners at 21st street and 4th avenue. The four wounded men are in Bellevue hospital. The detectives will recover, but the prisoners may die.

The two prisoners were Peter Bianco and Dominick Bianco, his brother. The other two prisoners escaped during the battle, in which forty shots were fired.

Hammill and Hoffman, seeking robbery suspects, saw four men at 116th street and 24 avenue who aroused their suspicion. They arrested the four and made them enter their own automobile.

Gang Pursues and Battles.

Hammill got into the front seat next to Dominick Bianco on whose other side sat the driver who escaped. Hoffman sat between Peter Bianco and the other man, who escaped, on the rear seat. Thus the party started to police headquarters.

The detectives believe that friends of the prisoners followed in another car and that those in the pursuing car received a signal from their driver that he would pull up at the curb after turning into 21st street.

So quickly was the car stopped that it almost skidded into the sidewalk, and immediately a fusillade of shots was fired by five or six men who came up from the rear. Hammill and Hoffman were hit by the first volley.

They drew their revolvers and as they did so the driver began struggling with Hammill and the man who escaped from the rear seat began struggling with Hoffman in efforts to wrest the detectives' revolvers from them.

Shoot Their Own Fals.

The gunmen kept firing, apparently careless of whether they hit police or prisoners. The Bianco brothers were shot. Hammill started to get out of the car and return the fire of the attacking car and Hoffman, unable to get out, with his broken arm limp at his side, shoved his left arm out of a door of the car and blazed away at the gunmen until he had emptied his revolver. Then he sank to the floor unconscious.

Hammill meanwhile had jumped to the sidewalk and started to advance upon the gunmen. Patrolman Conlon, on traffic duty nearby, came running up, his revolver drawn. He saw Hammill firing and, not recognizing him as an officer, placed his pistol against his body and ordered him to throw up his hands. Before Conlon could grasp the true situation, the gunmen fled.

SURFACE LINES' SHOPMEN ASK WAGE ADVANCE

Shopmen of the Chicago Surface Lines and the trainmen of the Chicago, North Shore and Milwaukee Electric Lines conferred yesterday with the companies' officials over demands for wage increase. Both systems believe the demands unacceptable.

The union officials handling the wage negotiations of the surface lines employees—15,000 trainmen and 5,000 shopmen—have heard that because of the termination of the present traction franchise next year the lines would accept receivership rather than be forced this year to concede any drastic wage increases. It is said the men much prefer dealing with a private corporation to a federal judge, represented by a receiver.

Meet Traction Official.

Union officials representing the shop employees of the Surface Lines—ele-

tricians, machinists, molders, track layers, and sheet metal workers—met Guy L. Richardson, operating vice president. He said the demand for an average increase of \$1 a day could not be granted. He referred to the short life of the present ordinance.

With the exception of some substation electricians, practically all the skilled tradesmen employed on the surface lines are paid \$1 an hour and their union contracts expire Aug. 1. The union delegates who conferred with president of the Metal Trades Council, James J. Ryan, sheet metal workers; Daniel Kerwin, blacksmiths; Patrick F. Sullivan, electrical workers; No. 134; Irwin (Bosco) Knott, electrical workers; No. 9; J. J. Uhlmann, machinists, and Chester Sample, molders.

After the meeting the union men announced another will be held within a week, before taking any definite action.

North Shore Conference.

Union representatives from the 1,500 trainmen and shop workers of the North Shore line met Bernard F. Fallon, vice president of the Chicago Rapid Transit company. Sam Shawcroft, their union president, outlined the trainmen's demands for a wage boost from 76 cents to \$2 cents an hour.

The company's counter proposal was

a reduction to 75 cents an hour, an 8 hour day instead of the present 9 hours. The company's argument was that the present payroll was 27 per cent "dead" because many trainmen complete their round trip runs between Chicago and Milwaukee, in four and five hours, but are paid for a nine hour day. Further meetings are expected.

Observers of both situations believe settlements will be reached without any strike and consequent transportation derangement.

Court Rules City Owes Old Employee 3 Years' Pay

The city of Chicago must pay Charles J. O'Connor, chief clerk in the comptroller's office, back salary amounting to \$11,246, according to an Appellate court decision yesterday. O'Connor was chief clerk from 1903 to 1919, when he charged he was forced to resign. He applied for reinstatement three years later, got a court order forcing the city to restore him, and then filed suit for his three years' salary. The high court decided the salary is due him.

BOY DIES OF LOCKAWAY.

Earl Brown, 11, of 15017 May street, Harvey, Ill., who accidentally shot himself in the hand on the Fourth of July, died yesterday of lockjaw.

688 REFUSE TO END STRIKE; LOSE JOBS ON SUBWAY

New York, July 13.—[Special.]—At noon today the period expired during which all men now on strike could return to the L. R. T. with all seniority rights, and at 12:31 o'clock the 688 men who refused to avail themselves of the offer were automatically discharged.

As soon as the ultimatum expired the company set about organizing a permanent force, just as though the strike had never occurred.

Sorry for Strikers.

James L. Quackenbush, general counsel for the company, expressed himself and President Hedley as being sorry for the men still on strike.

Labeling the whole strike as a "pity," he predicted that nearly all of the men probably will seek employment else-

where, but eventually, being railroad men, will return to the Interborough to work.

He said that as the old men come back they would be taken on if there were places for them, but they will have lost their seniority rights and will have to begin at the bottom again. Subway officials estimated the first week of the strike had caused a loss of revenue of \$239,359. Officials of the company also announced tonight that suit had been filed against the strikers to cover this loss. An injunction suit to end the strike also has been filed.

Men Who Lose Jobs.

There are 546 subway motormen and switchmen out, according to Mr. Quackenbush. The number of men normally in the department they left is 736.

Fifty elevated men are out. The department they left has a normal strength of 546.

The motive department lost 31 men out of 271, and one signal tower man went on strike out of 199 and cannot return under his old status.

Service is being maintained at about 70 per cent of normal.

FATHER OF 6 HELD AS SLAYER.

Joseph Simone, 35, of 5009 East 16th street, Chicago Heights, the father of six small children, was held to the grand jury for murder by a coroner's jury which yesterday investigated the slaying of Nick Danilio, 20. Simone denied the charge.

ROBERT SCOTT CHANCES NOOSE TO AID BROTHER

Won't Testify; Ready to
Make Not Guilty Plea.

CRIMINAL COURT.
Harold Peterson, obtaining money by false pretenses, sentenced to 1 year in the Reformatory by Judge Thomas J. Lynch.

BY GENEVIEVE FORBES HERRICK.
Robert Scott yesterday refused to testify for himself lest it might be against his older brother, Russell, already under sentence to hang Oct. 15, for the murder, April 2, 1924, of Joseph Maurer, loop drug clerk.

Judge William Nelson Gemmill, before whom the younger Scott had entered his plea of guilty, yesterday indicated that he would refuse to pass sentence until he had heard the defendant tell his own story, as a court witness, if necessary.

And so, as the alternative out of this impasse, here's what's going to happen this morning, according to the way all the arrows were pointing yesterday when court adjourned on a many-sided and peculiarly delicate disagreement.

Prefers to Stand Trial.
Rather than take the stand and, in order to change a possible death sentence into a life term, tell the court that Russell fired the shots that killed Maurer, Robert will instruct his counsel, Attorney William Scott Stewart, to withdraw his plea of guilty this morning, to enter a plea of not guilty, and to proceed to impel a jury.

When Judge Gemmill yesterday characterized the entire situation as one "almost unique in its relationships," that Robert would even risk the im-

INTO EXILE

(Chicago Tribune Press Service.)
PARIS, July 13.—Gen. Primo de Rivera, dictator of Spain, and Premier Briand in a two hour conference before signing the Franco-Spanish treaty today definitely decided to send Abdel Krim, defeated leader of the Rifians, to La Reunion island, southeast of Madagascar and off the coast of Africa. The climate there is said to be comparable to that of Krim's Moroccan homeland.

these are a few of the factors to which he referred.

Attorney Stewart is counsel for Russell, under sentence to hang, following a change of plea from guilty to not guilty, and two sanity hearings. In such capacity he does not want Assistant State's Attorney Emmet F. Byrne and Charles J. Mueller, in charge of the prosecution pointed out, Robert to add any further burden to Russell's legal liabilities.

Stewart also is counsel for Robert. In such capacity he seeks to rebut the statements, made by Russell during his trial, that Robert fired the shots.

And Stewart, in addition is attorney for the father, Thomas H. Scott. It is rumored that at the beginning of this trial Thomas Scott, zealous to save from the gallows Robert whom he yesterday called "the best boy in the world," suggested that the younger son take the stand and put all the cards on the table.

Tries to Shield Brother.
Thomas Scott and his wife, Willa, had concluded their testimony yesterday afternoon when Attorney Stewart announced that his client, Robert Scott, would not take the stand because in so doing he might cast reflections on his brother, Russell. Mr. Stewart went further when he declared that Robert would even risk the im-

position of the extreme penalty rather than gain mitigation by testifying against his brother.

Prosecutor Byrne began to shout that this was "subtle procedure" and demanded that Judge Gemmill call the defendant as a court witness.

Prosecutor Mueller analyzed the move this way:

"If Robert is saved from the noose," he shouted, "as soon as he is safely away in the penitentiary he will broadcast to the world that it was he, not Russell, who really did the shooting. This will be used to save Russell from the gallows."

"Indeed," countered Stewart, "and if Robert took the stand and said he fired the shots, would that save Russell? It would not, and you know it. Or, suppose Robert says he never was there. Can you hang him for lying?"

Summing up the situation, Judge Gemmill said, "Mr. Stewart, in all my experience at the bar I have never known a lawyer in such a position. You are the counsel of diverse interests."

Wants to Hear Robert.

"But Russell Scott has told his story, and it has gained some credence. I believe Robert Scott should tell his." Mr. Stewart, still fighting, argued that Robert had the constitutional right of not testifying, if he so chose. He repeated that his client would take his chances, at even the extreme penalty, "rather than add any more burdens to those of his brother."

The court called a short recess, during which time the Scotts, mother, father, son, held a conference with their attorney. Then counsel for defense and state held another session in chambers.

To give the defense further time for consideration Judge Gemmill adjourned until this morning.

"In this case, when two brothers are involved, when Russell has told one story," the judge explained, "I feel that I have a right and a duty to hear Robert before I pass sentence. If he says he fired the shots, then I ought to know it."

"If he says his brother fired the shots, then I will be something of a lesson to the hysteric parts of the community who have been feeling sorry for Russell because he is innocent."

At the end of the argument Judge Gemmill agreed that he would permit Stewart to change his plea this morning, if his client still refuses to take the stand.

'NO FIXING,' SAYS PROSECUTOR IN SPEED TRAP QUIZ

Only Order from Crowe
Can Stop Work.

BY J. L. JENKINS.

Borrowing a phrase from the lexicon of speed trappers and motorcycle cops themselves, Assistant State's Attorney Charles J. Mueller yesterday wrote "No fix—no pull" across the face of Chicago's cooperative crusade against automobile speed traps and official abuse of vehicle law enforcement.

Exasperated by the pressure—political and otherwise—which has been exerted in attempts to turn the grand jury investigation of traps away from certain of the county towns listed as unfair, and to squelch the entire probe into the activities of village police officers, magistrates, and justices, he declared nothing except a direct order halting the investigation from State's Attorney Crowe can slow down the campaign.

Appeals for River Forest.

"I know that village officials feel hurt about this investigation, which tends to throw a shadow across the fair name of their towns," he told Penn-Carroll, who appeared in the interests of River Forest officials.

"But this highway evil has grown to such alarming proportions that practically every town must clear its own skirts. We are not prematurely finding anybody guilty by examining books and documents, but we are running down every complaint from motorists and we're starting on the places where the complaints point to the worst conditions. There is only one thing that can halt this investigation. That is a direct order from State's Attorney Crowe."

The first fifty questionnaires, con-

taining all details of arrests, the payment of fines, police treatment, court proceedings and fee collection, were returned yesterday from people arrested in Broadview and Mount Greenwood. They disclosed a few differences in the statements of victims as compared to police and court records of the towns, and indicated a tendency to specialize on occupants of parked cars on the part of Chief Joe Hussar of Broadview, according to the prosecutor.

Many New Complaints.

Numerous new complaints appeared yesterday from motorists who have been picked up at Roosevelt road and Fifty-second avenue on charges of driving against the traffic. The reports declare that two police officers are stationed at this point to deal out arrest slips for drivers who pull over to the north half of the pavement in order to avoid the jagged pavement on a stretch of the eastbound lane. Victims declare that speed trap methods are used here instead of legal patrolling for safety, and point out that police officers should warn drivers against pulling out of line instead of waiting for them to do so and then issuing arrest slips.

Another "fair play" name was added to the motor list yesterday when Mayor John F. Daly of Lockport announced that motorists will receive just treatment and will be given the benefit of the doubt in his town. He has instructed his police officers and magistrates to patrol for safety only.

E. C. Yellowley Is Weak Following Operation

Physicians attending E. C. Yellowley, prohibition administrator, who underwent an operation for appendicitis at Mercy hospital last Sunday, last night announced his condition was unchanged. Mr. Yellowley was said to be quite weak and unable to receive visitors. It will be necessary, hospital attaches said, to divert telephone calls made to the sick room until the patient gains strength.

24 Men to Sell ELECTRIC REFRIGERATION

Are wanted at once by a large, old established manufacturer rated AAA-1. We are manufacturing an Iceless Refrigerator unit which we are now prepared to sell direct to homes, also to install and service ourselves throughout the Chicago District. We want a strong selling organization, which will be backed by direct mail and newspaper advertising, display rooms and expert service departments. There will be plenty of opportunity for advancement for the right kind of man as we expand. The nucleus of this sales organization will supply managers and executives for other territories. Careful training will be given those selected and working expenses will be paid during qualifying weeks in territory.

DRUNK ON 2.75% BEER? ABSURD! DR. KINDRED SAYS

Cites Scientific Facts in Congressional Record.

(Chicago Tribune Press Service.)
Washington, D. C., July 13.—(Special.)—Representative John J. Kindred (Dem., N. Y.), a practicing physician for 37 years, undertakes to prove that 2.75 per cent beer is not intoxicating in a supplemental edition of the Congressional Record issued today. Mr. Kindred asserts that his statements are based on actual personal experiments upon himself and others. He backs up his own observations with quotations from other medical men.

Dr. Kindred "declares that the present dry law 'has proven to be not only ineffective, costly, and unenforceable, but it also has proven to be one of the greatest sources of national unrest and the cause of the breakdown and lack of respect for all law and authority.' He adds that prohibition also has been 'the greatest factor in bringing about and causing the greatest crime wave in the history of the United States, as well as the cause of a breakdown in the morale of even the school girls and boys throughout the country.'"

After defining what he describes as the first, second, and third stages of intoxication, Representative Kindred asserts that it is absurd both from a legal and scientific standpoint to claim that 2.75 per cent beer when taken to

the full capacity of the human stomach could cause intoxication.

"I have made actual experiments upon myself and others which conclusively prove that beer of 2.75 per cent alcoholic content consumed by us to not and could not cause intoxication," Dr. Kindred says. "Two pints of beer, which is about the capacity of the stomach under its ordinary condition, would contain not enough alcoholic content or anywhere near enough to cause intoxication."

"No more effects could be produced from that quantity of 2.75 per cent beer than are produced constantly by one or two cups of strong coffee or tea."

"Six or seven or eight glasses of

beer would contain, speaking more accurately, about 32 fluid ounces, and 32 fluid ounces of beer with 2.75 per cent alcoholic strength would contain about seven small teaspoonfuls of ethyl alcohol or grain alcohol, which would not make any normal person drunk, especially in such diluted form as 2.75 per cent beer. This would be absorbed so slowly by the stomach and circulation that it would not even have the intoxicating effects of that amount of alcohol taken in undiluted form."

Believe Physician Killed Self with Carbolic Acid

Dr. Alfred Peterson, 50 year old physician, is believed to have killed himself by swallowing carbolic acid in his apartment at 151 Wrightwood avenue, yesterday. He had been in poor health for about a year. He was found in his room by his landlady, Mrs. Julia Rickwell, and died later at the Chicago General hospital.

RAIN ENDS FEAR OF BLASTS AT NAVY DEATH PYRE

21 Bodies Found; Army Has Narrow Escape.

(Pictures on back page.)

New York, July 13.—(Special.)—The army arsenal at Picatinny narrowly escaped following the navy ammunition depot at Lake Denmark up in smoke today. New fires, starting in a supply warehouse on the navy reservation, this morning threatened to touch off army powder that would have rocked northern New Jersey.

Only prompt action by Lieut. J. C. Richardson, a young naval aviation officer from Lakehurst, in organizing a bucket brigade of marines saved the situation.

After a brisk fight they conquered the flames, and Brig. Gen. Hugh A. Drum announced the danger of serious explosions was past.

Then, shortly before six o'clock this evening, rain began to fall over the smoking ruins of the navy depot, and soon it was believed the last threat of further explosions was gone.

Twenty-one Bodies Found. Four hundred marines plunged into the devastated area today to search for more bodies. Eighteen bodies have been recovered in addition to the first three deaths which were listed early.

Navy officers believe that others are still in the ruins.

The authorities are convinced that stragglers—possibly demented from shell shock—are lurking in the woods, starving and perhaps wounded. The enlisted men have not been checked up, due to a lack of records.

The loss to the navy zone in stores and materials was fixed today at approximately \$35,000,000. This figure does not include plant losses caused by the explosions. The army loss is \$5,000,000.

Preparing Official Inquiry.

Assistant Secretary of the Navy Robinson flew from Washington today to direct the search, pending the appointment by his chief, Secretary Wilbur, of two naval boards to inquire into government and civilian damage.

Other questions to be decided soon are when the army arsenal can resume functioning and whether the naval dump is to be rebuilt. Senator Edwards of New Jersey has come out against reconstruction of depots with in fifty miles of any sizable community, although the countryside itself, living for a large part on arsenal wages, is divided against itself on the question.

LABOR ROWS SLOW UP WATER METERING, JOB, SPRAGUE SAYS

Less than half the number of water meters scheduled to be installed in 1926 under the metering ordinance passed by the city council will be in operation by the end of the year, A. A. Sprague, commissioner of public works, said yesterday.

According to the program, 340,000 meters were to be installed within ten years at the rate of about 36,000 a year. Only 4,000 have been installed since March 1, the commissioner said, and it is doubtful if the year's total will reach 18,000.

The slow progress of the work, he said, has been due to disputes between plumbers and meter setters, which were settled recently by giving the plumbers the sole right to set meters.

Pardon Board Hears Pleas of 2 Chicago Murderers

Two Cook county murderers, Joseph Chapman and Vito Iannuzzi, seeking commutation of their life sentences to shorter terms making them eligible for parole, were among the convicts whose applications for clemency were heard by the pardon and parole board yesterday at Springfield.

The board also considered the plea of A. Poole, under a life sentence for rape. Chapman has served eight years for the murder of Orville H. Travis, president of the Fidelity Portland company, 31 South Paulina, in a robbery in 1918. All cases were taken under advisement.

BRIEFS ASKED IN EDITH M'CORMICK TRUST DISPUTE

New York, July 13.—(Special.)—Mrs. Edith M'Cormick enjoys an income of \$600,000 from the trust fund created for her benefit in 1917 by her father, John D. Rockefeller.

That was brought out today before Supreme Court Justice Mahoney during argument over the disposition of \$7,500,000 in stock dividends which have accrued to the \$1,200,000 in Standard Oil of Indiana stock in the original trust fund.

Mrs. M'Cormick's counsel says the \$7,500,000 is income on the original fund and therefore belongs to Mrs. M'Cormick. That view is contested by three institutions that are expected beneficiaries, their counsel contending the stock dividends should be kept intact as part of the principal.

The institutions are the Rockefeller Foundation, the Rockefeller Institute for Medical Research, and the general education board, all set up by John D. Rockefeller. In case Mrs. M'Cormick should not be survived by any of her three children they would receive the income from the fund.

Today's argument was on a motion asking that the court set aside the appointment of former Supreme Court Justice Frank C. Laughlin as referee in the dispute and asking for an accounting. The court reserved decision, calling for the attorneys to submit briefs.

Dutch May Build Forts as Bulwark Against Belgium

[Chicago Tribune Press Service.] THE HAGUE, July 13.—Holland may fortify the River Scheldt and build forts at Flushing and other places because of the Belgian conception of Antwerp as a naval port. A bill for the approval of the Dutch-Belgian treaty has been read a second time in the chamber and is considered acceptable to Holland.

Gallatin Gateway New Route opens to YELLOWSTONE

THE thrill of discovery is yours if you pass through Gallatin Gateway this summer! Virgin wilderness of Gallatin Forest, where wolf, bear, elk, mountain lion, sheep and goat still range!

Gallatin Gateway is the only entrance to Yellowstone connecting directly with the main line of a transcontinental railroad. Commencing August 1st, motor-coaches of the Yellowstone Park Transportation Company will meet Chicago, Milwaukee & St. Paul trains at Three Forks, Montana—the source of the mighty Missouri.

The trail sweeps across lovely Gallatin Valley with the blue barrier of Ranger Mountains, Gallatin Range and Spanish Peaks lining the horizon. Along Gallatin Canyon through the great National Forest Reserve and on into Yellowstone.

If you wish to continue to the Coast, on your return from the motor tour, step once more into "The Olympian"—and continue over the wonderful electrified railroad that leads to Mount Rainier National Park, Seattle, Tacoma, the Olympic Peninsula, the Pacific Ocean and Alaska!

FIND DISSECTED BODY OF WOMAN NEAR OPEN GRAVE

Check Missing Girls to
Solve Mystery.

Boston, July 13.—(United News.)—A double decked grave was to have concealed forever the dismembered and mutilated body of an attractive young woman discovered early today by a woman Mount Hope and New Calvary cemeteries in the Mattapan district.

This grotesque feature of the mystery was revealed when police found an open grave, freshly dug, in the latter cemetery. The grave was to have received a body this afternoon and authorities believe those responsible for the crime had intended to bury the hacked body of their victim beneath the floor of the grave and cover it with clay. There it would have remained undetected.

Finds Dissected Body.

Vittorio Gianini, state insane hospital attaché, discovered the dissected body while enroute to work.

The body had been cut into six pieces and deposited with some apparel in three parcels, a large cardboard box similar to those used by Sears, a smaller pasteboard box, and a burlap bag.

Besides the stockings, a pink embroidered nightgown of inexpensive cotton cloth was the only other article of apparel found, and there was nothing pointing to the victim's identity.

Medical Examiner Timothy J. Leary, who is conducting the autopsy, said the young woman was about 25 years old.

A preliminary report from Dr. Leary indicated that death occurred between forty-eight and seventy-two hours before the body was found. He stated the victim had been operated upon just before and just after death.

Check Missing Women.

While Dr. Leary continued his autopsy detectives compiled a list of missing women and began checking their descriptions with that of the victim. These numbered twenty-five, including Alice M. Corbett, Smith college junior, who disappeared on Nov. 1.

Several mothers and fathers visited the southern mortuary late today in the hope of identifying the victim, but the name of the dead girl remained a mystery.

WORLD GIRDERS HALT AT RANTOUL, AHEAD OF RECORD

Planes Not Equipped
for Night Flying.

Rantoul, Ill., July 13.—(AP)—Edward Evans and Linton Wells, on the final lap of their dash to break the world circling record, arrived here in two airplanes tonight at 6:35 o'clock, central standard time, and were forced to stop at Chanute field for the night because their airplanes were not equipped for night flying.

When their trip was started today they had hoped to make the hop to New York by 1:29 o'clock tomorrow morning, thus completing the globe circle in 28 days. Had they reached Cleveland from Rantoul tonight, Wells said this might have been possible. As it is they hope to better the best previous record by nearly seven days.

Old Record Made in 1913.

This record of 35 days, 21 minutes, and 35 seconds was made in 1913 by John Henry Mears, but he did not have the use of airplanes. Evans and Wells have employed various means of transportation, including ships and railroads, as well as the modern airplane.

They did not receive the instruc-

tions to proceed to Cleveland instead of to Dayton until they reached Chanute field, but said it was too dark to make the trip even as far as Dayton.

Hope to End It in 28 Days.

Had they reached Cleveland, they had expected to make the final leg of the journey to New York in planes equipped for flying at night.

Wells said they would take off here at dawn tomorrow and expected to make a nonstop flight to New York, reaching there before noon and completing their trip in 28 days and about ten hours.

The trip from North Platte, Neb., to Rantoul was made without incident, the globe trotters said, adding that they did not see any signals at Omaha, instructing them to land for instructions concerning a change in course.

PATHFINDER PLANE HERE.

A Douglas army transport ship, carrying six passengers, acting as pathfinder for the second annual commercial airplane reliability tour, arrived here yesterday at 2:15 p. m. from Detroit, where it had taken the air at 8:30 a. m. It was in charge of Lieut. L. C. Elliott and Sergt. William Ross of Selfridge field. The party was entertained at dinner by the Association of Commerce. The ship starts at 9 o'clock this morning for Milwaukee.

VETS OF RAINBOW DIVISION HOLD EIGHTH REUNION

New York, July 13.—(Special.)—

More than 1,000 delegates from twenty-seven states were present today at the opening session of the eighth annual reunion of the Rainbow (42d) division of veterans.

Gov. Al Smith, Mayor Walker and Gov. Francis Duffy, president of the organization, opened the convention with an invocation.

The governor stressed the importance of keeping the National Guard up to its fullest efficiency, together with a proper maintenance of the state arsenals and armories. The latter, especially, he declared, should be limited to the training of soldiers and not "diverted to athletic events, prize fights, and the like."

Among the other speakers was Col. Noble Judah of Illinois.

PRUSSIA OFFERS KAISER FARM IF HE'LL WORK IT

[Chicago Tribune Press Service.]

BERLIN, July 13.—If the former kaiser and the Hohenzollerns will knuckle down to farming their private estates, Prussia will return \$1,000 acres of their properties to them, the Prussian government has informed the legal representatives of the former kaiser.

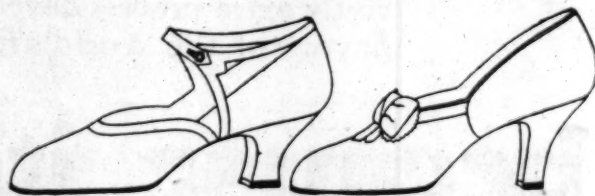

This land, the republicans assert, if properly farmed, will yield \$1,000,000 a year, which they consider sufficient sustenance for Wilhelm Hohenzollern.

The former kaiser also is demanding a cash settlement for 140,000 acres which the republic refuses to return to him. Prussia's new offer to the kaiserists called for the return of the crown prince's headquarters at Oels to the national government, as well as other concessions.

LINCOLN CARTER OF MELODRAMA FAME DIES AT 61

(Picture on back page.)

Lincoln J. Carter, after forty years of playing with the adventures of life and death through his vivid melodramas, went out quietly yesterday at 11:45 a. m. to meet his own big act. Death took him following an illness of several months at his summer home, "Sunset," on the banks of the Elkhart river, near Goshen, Ind. He was 61 years old.

Funeral services for the author who always insisted upon a happy ending for his plays, will be held tomorrow afternoon at 4 o'clock at "Sunset."

Interment will be in Violet cemetery, a few miles away.

Mr. Carter is survived by his second

wife, Mary L. Beane Whitmer Carter, whom he married in Goshen in 1916 and who was with him when he died; one son by his first marriage, Lincoln J. Carter Jr. of South Bend; by a half-brother, Walter Line; and by two half-sisters, Hattie Carter and Lettie Kolberg, all of Salt Lake City, Utah.

The heroes of Mr. Carter's melodramas were wont to grow up in placid ceremonies, and to live through a thousand and one hair raising adventures, before his prolific pen wrote a satisfying finale.

But Mr. Carter's own life, save for a few financial up curves and down shoots, and a sequence of literary crises, would have been a disappointment to his own pen and ink.

Born in Rochester, N. Y., on April 14, 1865, the very day Abraham Lincoln was assassinated, Carter was the son of Cary Carter, an itinerant actor and play manager who, with his wife and company, journeyed up to Alaska to play before the footlights. The boy was named Lincoln after the dead president.

In 1885 the young man, just turned 20, came to Chicago with a trunkful of manuscripts all about runaways and irate fathers and all manner of thrills.

His first play, "Siddonia," was pro-

duced in 1886 at the Chicago Academy of Music. Three years later came "The Fast Mail," with a record-making life. In 1893 there was "The Tornado"; in 1894, "The Defaulter"; in 1895, "Under the Dome"; in 1896, the famous "Heart of Chicago"; "Remember the Maine" came in 1897, followed by "Chattanooga" the next year.

The old Criterion theater here was Carter's workshop, his fat pocketbook, and later, it is reported, his financial liability. When he and it were at the apex of popularity, all of his plays were first produced here. At times he would have as many as thirty road companies.

When the Iroquois theater burned in Chicago in 1902, causing many deaths, new and stringent building regulations called for an entire rehabilitation of the Criterion theater. About this time, too, the motion picture began to cut in on the thrills of the old melodrama.

Gradually the thrills began to taper off and Mr. Carter turned his attention toward the invention of stage devices. His old-time papier-mâché engines and self-made one-man thunder storms had already gained him fame.

Several months ago the author, suffering from excessive enlargement of the heart, was warned by his physicians that his story had nearly spun itself out.

"It's been a good show. I'm ready for my cue," he had answered quietly. And quietly he waited for the curtain.

His last play, "An American Ace," lasted but a few weeks in New York in 1919. A try at scenario writing for the William Fox company in Hollywood was not long lived. So Mr. Carter, working in collaboration with the Shuberts, is said to have started his fortunes once more on the upward road through his manufacture of stage devices.

Ten years ago the playwright, widower of about a year, went to Goshen in connection with a motion picture performance given as a hospital benefit. He met Mrs. Mary Whitmer, widow of Harry Whitmer, wealthy Goshen manufacturer, and the two were married on Feb. 12, 1916. In 1924 she filed divorce papers at Elkhart, but at the dramatic eleventh hour she ordered the papers torn up, withdrew the suit, and in the melodrama's characteristic happy ending, the writer and his wife went off to Europe for a second honeymoon.

Several months ago the author, suffering from excessive enlargement of the heart, was warned by his physicians that his story had nearly spun itself out.

"It's been a good show. I'm ready for my cue," he had answered quietly. And quietly he waited for the curtain.

CORAL GABLES PROPERTIES IN ONE COMPANY

Miami, Fla., July 13.—(AP)—Organization of Coral Gables Consolidated, Inc., a \$10,000,000 project for nationally financing the principal subsidiary companies of Coral Gables, was announced here today by Telfair Knight, vice president and general manager of the Coral Gables properties.

George E. Merrick, president and developer of these properties, will act as president and chairman of the new corporation's board of directors with his associates as officers in various capacities.

The new corporation was created as a plan primarily of national financing under which will be brought to completion a ten year program of development and sale of Coral Gables properties. It contemplates the sale of 100,000 shares of 8 per cent cumulative stock at par value of \$100 each. Announcement is made that the major portion of the \$10,000,000 issue has been subscribed.

AUTO ACCIDENTS TAKE TOLL OF 5 YOUNG LIVES

Two Boys, Two Girls, and
Youth Killed.

Two girls, two boys, and a young man were killed in automobile accidents yesterday. The toll in Cook county was raised to 424.

Running from behind an automobile into the path of another, Anna Vincian, 8 years old, 2425

Frank Ziemicki, 6 years old, 3029 Emerald avenue, was fatally injured by a truck as he was about to get on a street car at 50th street and Wentworth avenue. The taxi cab driver took him to the Chicago hospital, where he died. Police are seeking the cab driver, who did not leave his name.

Boy, 6, Fatally Hurt.

Edward Lawrence, 6 years old, 5206 West Twenty-third place, Cicero, was struck and killed when he dashed in front of an automobile in 234 place near 17th avenue last night. Neal Sloan, 5413 West 25th place, driver of the car, took him to St. Anthony's hospital, but he died on the way. Sloan was not held.

Dowell Mason, 25 years old, 2424 West Adams street, was fatally crushed when he was run over by a truck he was repairing. James Noatsley, 1237 South Colman avenue, came into the shop at 215 South Morgan street, where Mason was working, and started the truck, not knowing that any one was underneath it.

Ernest Byfield Sued.

Ernest Byfield, official of the Hotel Sherman company, was sued for \$100,000 in the Superior court by Attorney Arne B. Hummel in behalf of Silvio Rossi. Rossi became blind as the result of being struck by an automobile driven by Byfield several months ago, according to the lawyer.

Another suit, for \$50,000 damages, was filed against R. L. Langford, owner of the Del Prado hotel, and his wife, Mrs. Carrie Langford, by Mrs. Bessie A. Brown, 5316 Kenwood avenue. Mrs. Brown charges she was injured a month ago when the Langford automobile struck her. The accident occurred at 55th street and Dorchester street.

TERM IN JAIL BROADENED ME, HOFFMAN SAYS

Free, Sees Friends,
Tells Impressions.

What effect has thirty days in jail had on Sheriff Peter M. Hoffman, one of the chief law enforcement officers for Cook county, himself responsible for the safe keeping behind bars of hundreds of offenders against the law?

Friends of the sheriff, eager to welcome him back, but curious also, perhaps, to learn the answer to that question, yesterday poured into his office in the county building. The sheriff had asked that no demonstration be made, and there was none. But dozens were there to shake his hand and wish him good luck.

Outwardly, Sheriff Hoffman appeared the same as when he entered

the Wheaton prison a month ago to serve the sentence imposed on him by Federal Judge James H. Wilkerson for contempt of court in the Druggan-Lake case. He was ruddy faced, vigorous in his speech, jovial.

Friends thought that the joviality had been slightly tempered. The sheriff discussed his imprisonment frankly and thoughtfully. He voiced a philosophy which was new to those who knew him. He confessed freely that he thought his experience had broadened him.

Being closer than ever before daily to some forty or fifty jail inmates had its effect on the mental attitude of the sheriff. Most of his companions were imprisoned for violations of the prohibition law. The sheriff could not look on them as criminals of a base type, he said. He spoke of his efforts to help in two instances when prisoners became ill.

Hoffman was not bitter against any one responsible for his stay in prison. He reiterated his position that he thought he had been too severely punished for the doings of his subordi-

nates. He hoped that he would be helped to forget the imprisonment, but declared that there were some benefits attached to the stay in jail.

One visitor, who talked at length to the sheriff, was heard to remark, as he left the office:

"Perhaps a short term in jail for other law enforcement officers in this county would help to make them better officials."

His Conscience Clear.

"I wish every one could understand this case as I understand it myself," the sheriff said, earnestly. "I enjoyed a complete rest, and I was able to do so because my conscience was clear."

"I was really ashamed to compare the Wheaton jail with ours. And it seems ridiculous that Sheriff John Hesterman has two high powered automobiles and several small automobiles to assist him in his work while here in Cook county we have but three cabs."

WOMAN DIES OF ALCOHOLISM.

Mrs. Anna Stowicz, 30 years old, 11347 Langley street, died of alcoholism yesterday at the Pullman hospital, where she had been a patient since Saturday, according to a report to the police.

BROTHER FIGHTS BROTHER O V E R BROTHER'S WILL

\$5,000,000 Estate Is
Involved.

Walter E. Jones of Phoenix, Ariz., yesterday took action in the federal courts here through which he hopes to set aside the will of his brother, Francis E. Jones, late president of the Melba Manufacturing company of Chicago, disposing of an estate which the plaintiff estimates at between \$5,000,000 and \$7,000,000.

Walter Jones was left \$10,000 in his brother's will, with the proviso that the sum would be forfeited if the beneficiary made any effort to break the will.

Francis W. Jones died on Nov. 7, 1925, and later his will was admitted to probate by Probate Judge Henry Horner. The admitted document, ac-

cording to the bill, accounts for but \$150,000. The remainder has been illegally appropriated by Albert G. Jones, vice president of the Melba company, another brother of the plaintiff, the bill alleges.

Attorneys claim that in one loop deposit box alone they have uncovered \$800,000 worth of government securities which properly are a part of the estate of Francis W. Jones.

The bill charges that Albert Jones conspired with his brother's attending physician to fraudulently append to the will the signature of Francis Jones while the sick man was not "in sound mind or memory to qualify him to execute a will."

The will was filed and admitted to probate Jan. 13, 1926. After specifying \$10,000 as Walter Jones' provisional share, the document provided for the equal division of the balance between Albert Jones and his sister, Mrs. James L. O'Neill, who was Mildred Jones, after several other bequests had been made to relatives and friends.

All of the beneficiaries of the contested will were named as defendants in the suit filed yesterday.

Its higher price, its better taste, both explained by one word—"Quality"

Fournier Hits 3 Homers, but Robins Lose

St. Louis, Mo., July 13.—(AP)—Jack Fournier, Robin first baseman, tied the modern major league record by hitting three home runs in today's game between Brooklyn and St. Louis. The homers were in the fourth, sixth, and ninth innings, and resulted in five runs. Sherdel was pitching for St. Louis. The Cardinals won, 13 to 10. Butler and Blades also hit home runs. Score: Cardinals 13, Brooklyn 10.

White Sox Notes
[Chicago Tribune Press Service.]
WASHINGTON, D. C., July 13.—The game today was a half hour late in starting because of the effects of the rain. The Sox were not permitted to start Sunday and last night at his home in Baltimore and there was nothing on his cards ball today except the after effects of fried chicken, griddle cakes, baked possum, and green apple pie.

There was no pleasure for Ump Dineen in doing his work today. For some unknown reason the fans were giving him the bird all afternoon.

The Sox aren't well fixed for pitching here unless veteran Mr. Faber should step in tomorrow and turn out a good game. Both Lyons and Blankenship need more rest. Old Stan Coveleski is slated to do the stuff for the Senators.

Nick Altrock, clownish coach of the Senators, is now doubling with the megaphone, doing all the announcing. If called upon he also can be ground keeper and sell peanuts and pop.

Notes of the Cubs

THE Braves will be with us again this afternoon. Jones or Root may be tendered the pitching job by McCarthy.

A number of cowboy folks from the wide open spaces were present. They whooped things up a bit by blowing holes in the air with their pearl-handled guns.

Manager Bancroft tried to put one over on Ump Sweeney in the ninth. He claimed he had been hit by a pitched ball but the arbiter didn't fall for the ruse.

When the Cubs reported at the park in the morning they learned that some kids had raided the club house during the night and stolen nine gloves, a few bats and some balls. Three of the gloves were found later on the roof of a ticket booth.

Freitag is still under the doctor's care. The attending M. D. isn't sure when the stomach ache will disappear.

Big Field to Start Monday in Western Amateur Golf

A record field will start out on Monday morning in the qualifying round of the Western Golf association's annual amateur championship at the White Bear Yacht club, St. Paul. More than 155 players have entered and among them are some of the greatest golfers America has ever produced.

George Von Elm, the California star, has entered. Francis Ouimet, Boston's best and a former holder of the best of our national titles, will also play. Chick Evans, who has held fourteen major championships, has entered.

Eddie Held, St. Louis; H. A. Flegler, Seattle; Harrison Johnston, St. Paul; Russell Martin, Flossmoor; Kenny Hiert, Olympia Field; Clarence Wolf and Jim Mannion, both of St. Louis, and many others have entered their names.

The pairings for Monday's play follow:
1.—C. H. Deo, Rumber Hill, and C. W. Griggs, White Bear, Edgewood, Minn.
2.—L. E. Bunning, Edgewood, Minn., and L. E. Bunning, Edgewood, Minn.
3.—Howard S. Johnson, White Bear, and L. E. Bunning, Edgewood, Minn.
4.—H. A. Flegler, Seattle, and H. A. Flegler, Seattle.

Tommy Thomas had been permitted to spend Sunday and last night at his home in Baltimore and there was nothing on his cards ball today except the after effects of fried chicken, griddle cakes, baked possum, and green apple pie.

There was no pleasure for Ump Dineen in doing his work today. For some unknown reason the fans were giving him the bird all afternoon.

TAYLOR'S TITLE SHOT DEPENDS ON RYAN BATTLE

Bud Must Win Decisively
in July 24 Fight.

BY WALTER ECKERSALL.

Although Bud Taylor of Terre Haute, Ind., is considered the strongest contender for the world's bantamweight title, Promoter Jim Mullin said yesterday he will not submit Taylor's articles for the Rosenberg match to the Illinois boxing commission unless Bud wins decisively over Tommy Ryan of McKeesport, Pa., in the feature of the boxing show at the White Sox park, July 24.

When Taylor boxed Ryan at Louisville this spring on the night before the Kentucky Derby, fans left the building uncertain as to who was the winner. It was not until the final round that Bud showed to a distinct advantage and many thought a draw was the proper verdict.

Bud Must Win Decisively.

In order that Taylor meet Rosenberg with a clear claim of challenger, Mullin will insist that Taylor tear loose from the first tap of the bell and show, if possible, he is the master of the little fighter from the Quaker state.

In order to be at his best for this fight, Taylor will arrive in Chicago Friday. Bud has been doing light work at his home in Terre Haute, but he intends to put in about five days of intensive training at a local gymnasium. Ryan will be here Monday.

Fans Eye Lightweights.

Fans are beginning to take a keener interest in the show and many are looking forward to the ten round contest between Johnny Adams of California and Billy Petrolle of Fargo, N. D. Adams is looked upon as one of the leading contenders for the lightweight title and Manager Tom Jones intends to match him with any of the challengers in order to prove his right to a match with Sammy Mandell.

While in the east Mullin tried to sign Kid Kaplan, who recently gave up the featherweight title because he cannot make the weight with Adams. The former 126 pound champion was willing to box Adams at 133 pounds, but not at 135 pounds. Petrolle's win over Frankie Schaeffer in the first round at East Chicago recently has made him a strong favorite with the fans.

Tickets will be placed on sale tomorrow.

Eckersall's Gossip of the Boxers

BEFORE leaving for the east yesterday, James Farley, chairman of the New York boxing commission, who has been in Chicago to attend the annual convention of the Eike, let loose with a few interesting pieces of news. First, he said that he does not believe Jack Dempsey will ever fight again. According to Farley, the champion has shown such an indifference to commission rulings and offers of promoters that he does not believe Jack is sincere.

The New York boxing chairman also stated that Mike McTigue will get the first chance at the winner of the Paul Benzaion-Jack Dempsey fight in Brooklyn tomorrow night. Farley also stated the commission will not put on a tournament to determine a featherweight champion, a title left vacant by Kid Kaplan, who admits he cannot make the weight.

Farley also stated the east will have a logical contender for the bantamweight title from New York. He said that the colored eastern 118 pounder, a match between the winner of this contest and the victor of the Taylor-Rosenberg contest would result in an undisputed and respected bantamweight champion, according to Farley.

On Aug. 14, Harry Greb of Pittsburgh will attempt to win back the middleweight title from Tiger Flowers. Farley claims this match will be among the best of the season in New York.

Jack Kearns, manager of Mickey Walker, former world's welterweight champion, yesterday agreed to match Walker with Shufeldt. Promoter Mullin secured the match and will apply for a permit early in September. Kearns intends to remain in Chicago to watch developments of the proposed Dempsey-Turner bout, which local interests are trying to bring to Chicago. Kearns stated he will tie up his share of Dempsey's end if the fight is held here or on any other place.

Because of the absence of Chairman Hunkeler and Commissioner Paul Frenn from the city, the boxing commission did not meet yesterday. According to Secretary O'Brien, the next regular meeting is slated for 10 o'clock on Friday morning.

Tom Sanders, local lightweight, who meets Harry Babin of Milwaukee in the semi-windup to the Tommy O'Brien-Harry Babin bout at Milwaukee tomorrow night, left for the Cream City yesterday, accompanied by Manager Eddie Stanton.

Stanton is the owner of the fight and it is to be held in the Badger state under the present boxing law. It will be promoted by Tom Andrews.

Wolcott Langford, who earned a referee's decision over K. O. White at New Orleans last Monday night, will return to Chicago today accompanied by Manager Barney Abel. Langford will resume training in a day or two for his bout with Jack McVey at the Sox park on July 24.

Midway Smith, Ernie Peters, Erland Peterson, Marty Fields and Spiz Myers are among some of the fighters training every day at Mullin's.

MOON MULLINS—A HOME TALENT SHOW

Scratches at Empire Upset Race Program

New York, July 13.—[Special.]

Wholesale scratching ruined what might otherwise have been an enjoyable program at the Empire City course in Yonkers this afternoon. There were forty-nine entries, enough for good fields in all the events, but the trainers withdrew seventeen.

The Frivolity stakes under claiming conditions, was the featured number. Two were scratched from the overnight entries of four and the Sage stable added Broomey to make a race of it. But he might as well have been left in the barn, as far as winning was concerned, although he did take down \$300 third money by trailing Walter J. Salmon's Ennu and James Butler's Turt King.

While in the east Mullin tried to sign Kid Kaplan, who recently gave up the featherweight title because he cannot make the weight with Adams. The former 126 pound champion was willing to box Adams at 133 pounds, but not at 135 pounds. Petrolle's win over Frankie Schaeffer in the first round at East Chicago recently has made him a strong favorite with the fans.

Tickets will be placed on sale tomorrow.

Eckersall's Gossip of the Boxers

BEFORE leaving for the east yesterday, James Farley, chairman of the New York boxing commission, who has been in Chicago to attend the annual convention of the Eike, let loose with a few interesting pieces of news. First, he said that he does not believe Jack Dempsey will ever fight again. According to Farley, the champion has shown such an indifference to commission rulings and offers of promoters that he does not believe Jack is sincere.

The New York boxing chairman also stated that Mike McTigue will get the first chance at the winner of the Paul Benzaion-Jack Dempsey fight in Brooklyn tomorrow night. Washington Park Race Notes

Frederick Grabner has decided to go after the \$25,000 Coney Island Derby with his good colt Chicago and will ship the son of Granite to Cincinnati late next week. He will be returned to Washington Park soon after the race and be pointed for the American Derby.

Mose Shapoff will arrive from Windsor, Can., with twelve horses this afternoon. It is the same Mose Shapoff who trained G. Frank Croissant's big string last season.

Post-time for the first race will be 2 o'clock starting tomorrow.

BALANCING GRAIN AND LIVE STOCK, NOW IOWA IDEA

BY FRANK RIDGWAY.

Missouri Valley, Ia., July 13.—[Special.]—Fifty cent corn last winter taught Iowa farmers a valuable lesson. They are now struggling to develop a better balance between grain and livestock and there is a noticeable change in their cropping systems to avoid the risk and losses that often come to the farmer who grows grains to be sold for cash.

Shifting crops is a slow process and doesn't always work out as growers plan. Farmers in this state had good reasons for reducing their acreage of both oats and corn this year, but unfavorable weather during the season for sowing wheat and other small grains last fall and this spring left them with thousands of acres that had to be used for their two old stand-by crops—corn and oats.

In crossing Iowa from east to west there is plenty of evidence of the change in the cropping systems.

While oats and corn held away, they are being supplemented with hay and pasture crops that will carry live stock through the summer while they are waiting for the grain crops to grow. There are approximately a million acres of clover, alfalfa and soy beans growing alone and in combination with other crops.

An increased use of sweet clover and alfalfa means an enormous tonnage of limestone is being used to sweeten the soil so the soil building crops can be grown. It is an expensive task to sweeten soil when it takes at least two tons to the acre of limestone at \$2 a ton.

RAINS IN TEXAS BULGE COTTON \$3.00

Cotton prices jumped \$3.00 per bale on spots in New York to 18.50 and futures were up 51 to 60 points at the close, with Chicago 50 to 65 points on the active trading.

Trading was active and sentiment more favorable to the buying side. Liverpool was strong and closed 18 to 20 points higher.

Heavy rains in Texas and Oklahoma, and in parts of Louisiana were the bullish factors, offsetting the effect of dry weather over the greater part of the eastern belt. Wet weather was said to be favorable for spread of insect damage, and had a bullish effect. Selling pressure was light, except at around the top level, with small recessions from the best prices at the close of profit taking.

WALL STREET NOTES

NEW YORK, July 13.—(P)—Speculative interests in today's curb market was again confined to about a dozen issues, the general list fluctuating within narrow and irregular limits.

Selling pressure in the oil group was not as pronounced as that of yesterday, a few issues, such as Standard Oil of Kentucky and Beacon, showing net gains of a point or more. Most of the attractive issues showed small losses.

A jump of over 5 points by Brooklyn Motor Truck to a new high at 33 was the only development of importance in the automotive group.

Glen Alden rallied over 2 points to 166, but the other coalers were quiet. Baking shares were slightly reactionary.

Sharp gains on small turnovers were recorded by the Alabama Great Southern railroad, Borden, Bucyrus, Dresser Bank of Berlin, G. & E. Kroger, and New Jersey Zinc. Excess for a gain of over 2 points in United Gas Improvement the public utilities were devoid of special features.

The establishment of time money rates on a slightly higher level restrained buying operations in the bond market today, but brought about no significant changes of trend.

United States government issues worked lower, with treasury 3½ and 4½ suffering the heaviest losses. Selling of investment rails and public utilities was counteracted by the strength of semi-speculative issues.

News of the debt funding agreement between France and Great Britain, as well as the accord with Spain on Moroccan affairs, exerted a little influence on French bonds.

All of the government's issues worked materially higher and the leading French rail bonds were strong. Elsewhere in the foreign list trading interest centered mainly on German obligations. Berlin 6½ reached a new high price and General Electric 6½ gained nearly a point.

WORLD'S GRAIN MARKET NEWS

Wheat traders here were mainly bullish last night, many expressing the belief that a bull market had started and unless the unforeseen happens a higher level of values is at hand.

Trade broadened materially and the short interest was reduced. A shortage in the spring wheat crop based on the official returns with a shortage of moisture is the basis for the bullishness and advance in price.

Bullish ideas regarding the western Canadian wheat crop, which largely dominated the trade here, were not shared in by most operators in Winnipeg. The latter believe that prospects are for as large a crop as last year, 411,000,000 bu., the 400,000,000 bu. mark being uppermost in their minds.

One Chicago house with Canadian connections said the crop would be around 400,000,000 bu. A Winnipeg elevator man with 800 elevators scattered over the western provinces was quoted as saying his reports indicated that at the worst the Canadian official report was 50,000,000 bu. below prospects. A Winnipeg man who has been bullish has sent less favorable reports the last two days.

J. P. Griffin says that the Canadian government report rather definitely explodes the popular theory of a large North American wheat crop. Figures indicate a reduction of 63,000,000 bu. compared with the crop of 1925. It indicates a fair crop for Canada instead of a bumper yield. Spring wheat seldom improves after July 1. There is nothing to justify the low prices, as it is generally conceded that European production is substantially below last year's.

WALL STREET NOTES

NEW YORK, July 13.—(P)—Speculative interests in today's curb market was again confined to about a dozen issues, the general list fluctuating within narrow and irregular limits.

Selling pressure in the oil group was not as pronounced as that of yesterday, a few issues, such as Standard Oil of Kentucky and Beacon, showing net gains of a point or more. Most of the attractive issues showed small losses.

A jump of over 5 points by Brooklyn Motor Truck to a new high at 33 was the only development of importance in the automotive group.

Glen Alden rallied over 2 points to 166, but the other coalers were quiet. Baking shares were slightly reactionary.

Sharp gains on small turnovers were recorded by the Alabama Great Southern railroad, Borden, Bucyrus, Dresser Bank of Berlin, G. & E. Kroger, and New Jersey Zinc. Excess for a gain of over 2 points in United Gas Improvement the public utilities were devoid of special features.

The establishment of time money rates on a slightly higher level restrained buying operations in the bond market today, but brought about no significant changes of trend.

United States government issues worked lower, with treasury 3½ and 4½ suffering the heaviest losses. Selling of investment rails and public utilities was counteracted by the strength of semi-speculative issues.

News of the debt funding agreement between France and Great Britain, as well as the accord with Spain on Moroccan affairs, exerted a little influence on French bonds.

All of the government's issues worked materially higher and the leading French rail bonds were strong. Elsewhere in the foreign list trading interest centered mainly on German obligations. Berlin 6½ reached a new high price and General Electric 6½ gained nearly a point.

CHICAGO, July 13.—(P)—Wheat futures opened 50 to 65 points higher at the close, with Chicago 50 to 65 points on the active trading.

Trading was active and sentiment more favorable to the buying side. Liverpool was strong and closed 18 to 20 points higher.

Heavy rains in Texas and Oklahoma, and in parts of Louisiana were the bullish factors, offsetting the effect of dry weather over the greater part of the eastern belt. Wet weather was said to be favorable for spread of insect damage, and had a bullish effect. Selling pressure was light, except at around the top level, with small recessions from the best prices at the close of profit taking.

The 50 bale unit for trading in Chicago which helps to make a broader market. Memphis had its first bale of new cotton, yesterday. It came from Westlake, southwest Texas. Prices in leading markets follow:

RAILROADS SHOW TRADE IS MISSING MIDSUMMER SAG

BY O. A. MATHER.

Yesterday brought additional evidence that trade and industry are likely to escape the customary midsummer dullness this year. The best proof of unusual activity came in the weekly report of the railroad movement of commodities.

The railroads announced the seventh "million car week" for this year, again breaking all former records. They also reported an expanding movement of merchandise and less than carload lot freight, which is evidence of broad purchasing power, as well as an increasing movement of grain. Loadings for the week ended July 3 totaled 1,073,624 cars, an increase of 10,772 over the preceding week. The current total also marked increases of 206,425 and 214,720 cars over the respective corresponding weeks last year and in 1925, both of which weeks contained the Independence day holiday.

Gain in Merchandise Movement.

The current figures show that one-quarter of the total movement was represented by merchandise and less than carload lot freight, the movement being 266,223 cars, a gain of 2,832 over the preceding week, while miscellaneous freight totaled 400,622, a gain of 5,178 cars.

With the marketing of wheat now getting under way, the present sharp upturn in prices, if it holds, will mean a gain for farmers. The present report shows loading of grain and grain products at 61,893 cars, an increase of 7,932 over the preceding week and 18,035 over a year ago. In the western district alone grain and grain products reached 25,737 cars, an increase of 4,974 over a year ago. The movement of live stock, which now yields high prices, ran to 24,353 cars, and this also is aiding the farmer. On the other hand, loadings of coal and coke declined, as also did those of forest products.

Metal Prices Advanced.

The better situation in the metal mining industry was shown in price advances in copper, lead, and heavy melting steel scrap. The American Bureau of Metal Statistics reported that stocks of refined copper in the hands of North and South American producers totaled 66,036 short tons on July 1, a decline of 2,373 tons during June, although production was 116,743 tons, compared with 118,989 in May. Foreign and domestic shipments last month were 129,016 tons, compared with 117,173 in May and 118,864 in April. Domestic shipments for the first half of this year set a new record of 451,994 tons.

Recent expansion of petroleum production, which has disturbed that industry, was halted last week. The daily average gross crude oil output totaled 2,032,450 barrels, a decline of 5,800 from the preceding week. While California output expanded 1,400 barrels a day, this was more than offset by a decline of 7,200 barrels a day east of the Rocky mountains.

Back Dividends Declared.

Two corporations which have been in arrears on dividends for many months yesterday announced additional payments to their stockholders. The Interstate Iron and Steel company declared a back dividend of 4 per cent on its preferred stock, thus reducing accumulations to 5 per cent. The stockholders will meet on July 28 to vote on a new issue of \$4,000,000 of 5 1/2 per cent bonds, to be used in refunding the outstanding \$2,353,400 series A 8 per cent bonds, which were issued in 1921 and are due in 1924.

The Jewel Tea company declared a back dividend of \$2.25 on its preferred stock. The Consolidated Laundries corporation declared an extra stock dividend of 1 per cent. The stockholders will meet on July 28 to vote on a new issue of \$4,000,000 of 5 1/2 per cent bonds, to be used in refunding the outstanding \$2,353,400 series A 8 per cent bonds, which were issued in 1921 and are due in 1924.

Industrial Rayon.

G. K. M. Industrial Rayon corporation

reported that 1925 was the best year

in its history. Its production of rayon

(artificial silk) was 2,235,000 pounds.

The corporation and affiliated com-

panies reported net profit of \$1,149,804,

before federal taxes, but after depreciation,

etc.

This is equal to \$2.60 a share on the

combined 449,263 shares of no par class A

and class B stocks.

The corporation now plans to acquire

all the outstanding stock of its present

subsidiaries and to exchange all the class

B stock for class A shares for share, leav-

ing only one class of stock which will

have full voting rights.

No dividends are reported on the stock.

It has some merit, but is a speculation

at present.

This Is Last Day to Get In on Sally's Big Circus Party

BY SALLY JOY BROWN.

Well, it's the last chance, girls and boys, to win an invitation to my circus party a week from tomorrow. Tomorrow morning I pick the winners, you know, so your letters must be in the mail this afternoon to reach me in time to win invitations.

To help you write winning letters, I am going to tell you about another new feature of the wonderful afternoon we'll have. This year there'll be a race of Shetland ponies, not over fourteen inches high, and where do you think the circus got such ponies? It's a trick. They're not ponies at all—they're dogs dressed up as ponies, and they're the finest imitations you ever saw!

Then there's an act of real horses—eight hundred of them performing all at once. And there's a big elephant act—and so much more that I can't begin to tell you about it all. With all these treats in store for you, can't you write a letter that will tell me why you'd like to come, and write it well enough so that I can tell that you're among the hundreds of girls and boys who'll enjoy the circus most?

Of course you can—the only thing is to write it now and get it in the mail by this afternoon. And don't forget to give your street address and age. I can't give invitations for letters that don't have this information. Then watch next Sunday's paper for the names of the lucky hundred winners.

Now just a word for my guests at tomorrow's party to see Colleen Moore in "Ella Cinders" at the Chicago theater. Your invitations have been mailed, and should be in your hands by this morning, so you'll know about our plans for meeting, and I hope you're all set to come, because we're going to have a wonderful time, I can promise you.

HAROLD TEEN—HIGH PRESSURE SALESMANSHIP

Timid, Tongue Tied? Cure is to Forget All About Yourself

BY DORIS BLAKE.

Whenever she goes to a dance, theater, or dinner, "Wondering" tells me, it seems that everybody is watching her and nothing every little move she makes. And when she happens to make a mistake it seems as though everybody around her knows it. Her friends tell her she ought to get out of this habit. She says she has tried without success.

I suppose Wondering would be surprised and distressed to learn that what she is a large case of self-importance. Unless a girl is a perfect knockout as to looks and personality,

everybody is not watching her. She just thinks that. She could make a hundred moves and the world wouldn't observe any of them unless her self-interest made her conspicuously awkward.

If any one else is troubled as Wondering is, the remedy is to tell yourself in good, plain, unadorned English that you are simply not important enough for all eyes to pause and observe. You can make mistakes, and unless you spill hot coffee down your neighbor's neck they attract no more attention than the mistakes we all make at one time or another. Of course, I'm not advising that you go in for making errors. But just don't think you are important enough for everybody to observe.

When you find yourself tongue-tied your fault is the identical same. You

have your mind so tied to that little old "I" you can't let go. This so-called sensitiveness really does not deserve so charitable a name. It is too busy with itself to be concerned about the impression you are going to make.

A girl was telling me a while ago about the miserable first years of her social life. She was one of those souls that had an idea she was the observed of all observers. She unburdened one day to a hard-headed aunt, who suggested that in future she substitute "I" for "I". It proved an effective remedy. Presently she found herself watching the impressions other girls were making and how they made them. Also, she began making queries about how the other person felt about things and soon she could talk up with the rest of them.

Bright Sayings of the Children

During the celebration of the Fourth a boy was found in the Walbridge park. The policeman brought him to my car, asking me to keep him for a while until he found the parents. "Did you get lost?" I asked the little boy.

"No," he sobbed, "I did not. I am here. My mother got lost."

It was a hot July day and Jimmy was helping mother scrub the porch. "How do you like your job, Jimmy?" called the little girl next door. "Aw, pretty good," returned Jimmy amiably, "but I'd rather be scrubbing the north pole!"

Max, K. D. B. Bill, aged 5, had spent the winter in La Jolla, Cal., and "Slim," the village

J. D. G. HENNA WILL NOT TAKE the natural wave out of the hair. It comes in different shades and if you go to a reliable hair store to have it applied they will see to it that the proper shade is used. I advise having the thing done by one experienced in that line of work. The results then are satisfactory.

HETTY: TO GIVE THE HAIR a lustre there is nothing better than the use of the hair brush, but you must be faithful, brushing it every day. If the hair and scalp are dry, put a little olive oil or vaseline on the scalp and then brush it vigorously. In a month's time you will see a great improvement. Send stamped addressed envelope for my booklet, "Care of the Hair."

MISS X: THE CONTINUED USE of a laxative is quite harmful. The proper way to overcome constipation is by regulating your habits and diet. Drink plenty of water and eat freely of green vegetables and fruits. You need to get the necessary eight hours' sleep and some exercise every day. I sleep and some exercise every day. "The OTHER WOMAN'S STORY"

TRIBUNE COOK BOOK

BY JANE EDDINGTON.

Smothered Chicken.

The smothering of a chicken is a strange and almost weird interpretation of smothered chicken sent me flying to the cook books to find out what was the idea of different cooks on the subject. What I saw was a mild-like place of chicken covered with a cup of rich, velvety thick cream sauce, or enough sauce to go with the whole of a small chicken, if palatably dainty.

There are many interpretations of smothered chicken, but these mostly agree in smothering it while it is in the process of cooking, not with a slightly cooked better when it is served; that is, it is cooked in a covered pan. In some cases it is browned first on the top of the stove, but in the following recipe for two small chickens or one large one, with salt, pepper and butter (two or more tablespoons), flour and water, it was not.

This is one of the most delicious ways of cooking chicken. Take off the neck and split the chicken down the back, wiping it with a damp towel. Season inside and out with salt and pepper, and dredge on all sides with flour. Lay the chicken with the inside down in a small baking tin and add a little water. The pan should be little larger than the chickens, otherwise the gravy will be too quickly evaporated. Cook slowly for one hour, basting every ten minutes after the first twenty minutes, or cook in a covered baking pan. Should the chicken be decidedly lacking in fat, add butter or butter substitute. There will be plenty of gravy in the pan with which to baste it if the pan is small. When done place the chicken on a hot platter, add enough water to make two cups of gravy and thicken with two tablespoons of flour. Should the chicken be quite fat remove all but two tablespoons of the oil from the pan before making the gravy. Season with salt and pepper, pour it over the chicken and serve at once. The secret of success in this kind of smothering lies in frequent basting and in not having too hot an oven.

An oven that would be 400 if the door not opened frequently for the basting may be 300 if the door is left to fit—and many other things. Use cream for gravy, if you wish, and meat stock instead of water.

FAMOUS FEET

...how they're kept free from corns...

Gene Sarazen's Golfing Feet

"Thirty-six holes of golf a day certainly doesn't drive corns away," writes Gene Sarazen.

"But Blue-jay does. A sensitive toe gets a lot of friction in a day's going on the links. But when a corn appears, I put on a Blue-jay plaster."

In every walk of life, where feet are essential to fame and fortune, Blue-jay is the preferred method for vanquishing corns. A cool and velvety pad fits over the corn and relieves the pressure and pain at once. Then the corn goes—usually unobtrusively. But even the most obstinate corn seldom needs more than a second plaster. At all drug stores.

Killer of Three, Captured in Cicero, Confesses—Yacht and Balloon Races Feature Elks' Convention

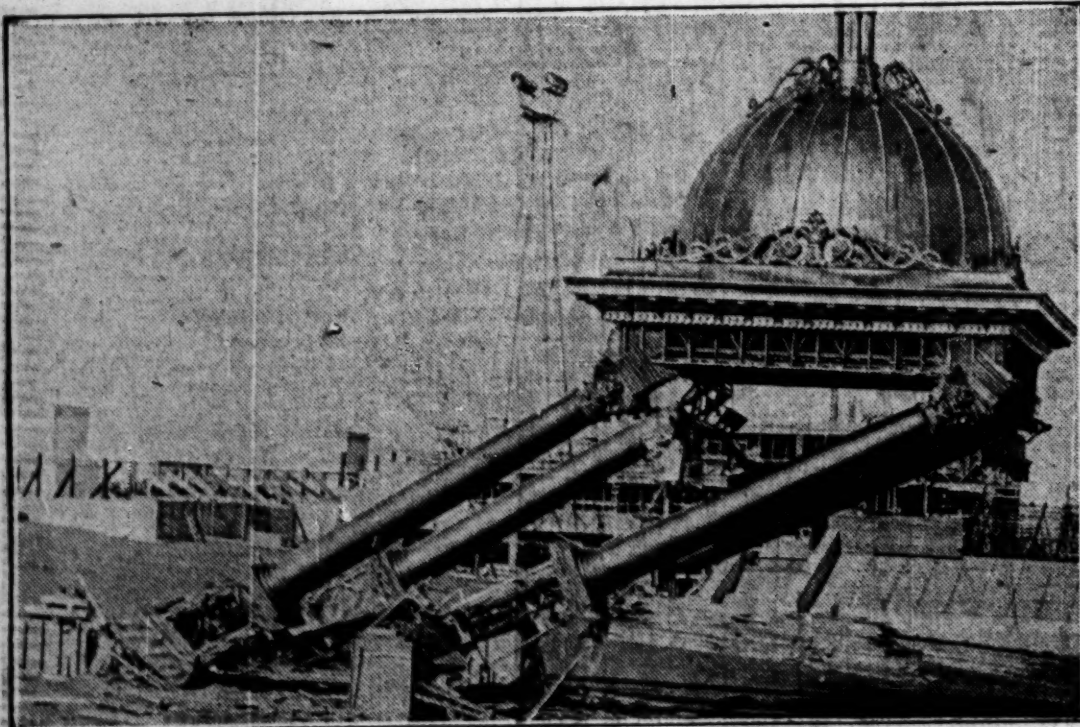

BALLOONS START FROM GRANT PARK IN RACE WHICH IS ONE FEATURE OF ELKS' CONVENTION. The picture shows two of the big gas bags entered in the contest arising and drifting in a southwesterly direction in the general direction of St. Louis. Some of the best known balloonists in the country are among the contestants. (Tribune Photo.) (Story on page 1.)

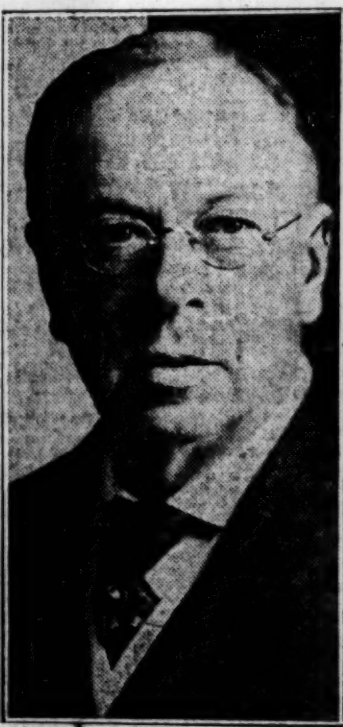

SUES BOOZE SELLER. Mrs. Clifford Bates acts against dealer who sold to husband. (Tribune Photo.)

SHELL HOLE TORN IN WALL OF ONE OF MAGAZINES AT LAKE DENMARK. The gap in the wall reveals a number of 16 inch shells standing upright. There are still thousands of unexploded shells in the magazines on the grounds. (Pacific and Atlantic Photo.) (Story on page 10.)

GILDED CANOPY OVER EUCHARISTIC CONGRESS ALTAR TORN DOWN. The picture was taken just before the structure which played so prominent a part in the ceremonies in Soldiers' field during the congress hit the ground. (Tribune Photo.)

WEDS AT 72. George Chamberlain, former United States senator from Oregon, marries. (Copyright: Bushnell Photo.)

SLAYER OF THREE CAPTURED, CONFESSES HE PLANNED ANOTHER MURDER. Left to right, seated: Lieut. Martin Wojciechowski, who captured killer; James Crisius, alias Granite, the murderer, hiding missing thumb. Standing: Roy Adams, Lila Adams, Maude Landon, and Victor Landon, who is identifying Crisius. (Tribune Photo.) (Story on page 1.)

MUTILATED HAND AIDS IN TRAPPING SLAYER. James Crisius, alias Granite, who confessed three murders, holding up his hand, showing absence of thumb. (Tribune Photo.) (Story on page 1.)

PLAYWRIGHT DIES. Lincoln J. Carter passes away at Goshen, Ind. (Story on page 12.)

HELD FOR FRAUD. Harry Hochstein, Deneen leader in 20th ward, indicted. (Story on page 3.)

RAGGED ROMEO. Joseph Stockner, who eloped with wife of man who fed him. (Story on page 5.)

NEW GRAND EXALTED RULER OF ELKS INSTALLED WITH IMPRESSIVE CEREMONY AT AUDITORIUM. The two central figures in the picture are Charles H. Grakelow of Philadelphia, the new chieftain (left), who is shaking hands with Judge William H. Atwell, retiring exalted ruler, while a string band from Philadelphia Lodge No. 2 stands by. (Tribune Photo.) (Story on page 3.)

THIRTY-NINE BOATS, DIVIDED INTO EIGHT CLASSES, TAKE PART IN SIX MILE RACE FROM VAN BUREN STREET GAP TO THE FOUR MILE CRIB AND RETURN FOR SILVER CUPS OFFERED BY ELKS. This picture shows the yachts strung out along the Grant park shore line after they passed through the Van Buren street gap at the start of the race. The winners in the respective classes were: George Orr's schooner "Fame," Holbrook's yawl "Quest," John O'Rourke's "Q" class "Intruder," Hal Redmond's Seawanhaka sloop "Columbia," Bob Hayne's eagle sloop "Falcon," Dave Kalis' pup "Minnow," Herbert Craig's jack "Boob," and Commodore Hollis Potters "R" sloop "Calypso."
